

Plastic Micro Servo Adapter for LEGO Cross – 16mm long

PRODUCT ID: 4252

Who doesn't love LEGO and compatible bricks? Nobody! Except when we accidentally step on them. There are soooo many mechanical things one can make with those ubiquitous bricks, plates, gears, pulleys. Say a [13-meter high LEGO London Tower Bridge](#)...

But what do you do when you want to add LEGO-compatible bricks and parts to your servo arms and horns? This is the adapter you need! Just push the axle housing end onto the shaft of your [Micro Servo](#), and it's ready to adapt to the standard LEGO-compatible cross axle parts, including gears and wheels. So easy, we think this will enable many creative endeavors.

Comes 1 x per order – [fits our Micro Servo](#) only! Not guaranteed to fit with any other kind of servo splines, and definitely doesn't fit our standard servos.
