# Flambeau®

Distinctive Packaging For Quality Brands And Products™

## Single Source Solutions ... In Plastic

Flambeau® Inc. is a worldwide industry leader in thermoplastic manufacturing, specializing in both injection and blow molding. Our unique competitive advantage is the ability to offer the largest array of proprietary stock plastic packaging and storage products ... along with countless customization options.

*Consider Flambeau Packaging as Your "Art to Part" Source!*

### Full range of services:

- Part design
- Mold design
- Manufacturing and assembly
- Various product fulfillment programs
- Prototyping
- Sampling
- Custom quoting

### Flambeau Inc. History

Flambeau Packaging, a division of Flambeau Inc. has been doing business since 1947. Headquartered in Baraboo, WI, we pride ourselves in being a family owned company. We foster core values such as Family, Integrity, Leadership, Teamwork and Knowledge for the pursuit of Excellence with people who care ... and who are committed to providing you professional service when you need it!

### Customer Service: 1(800)344-5716

Our professional customer service associates are eager to help answer questions and solve problems! You can contact us toll free for guidance and great customer care.

We encourage you to examine all we have to offer at our website: [flambeaucases.com](http://flambeaucases.com)

### Express Service<sup>SM</sup>

Offers one unit to single carton quantities of in-stock cases to be shipped within 24 business hours. Qualifying products are marked with a **E** symbol.

### Special Order / Non-Stock Products

Most products are in-stock and ready to ship, but non-stock products are marked in the catalog as **S** and are available with reasonable lead-times.

### ECO Friendly Products

Flambeau's Packaging Divisions offers 100% recyclable storage cases and boxes. Ensures customer disposal of product lessens their carbon footprint on the environment & provides additional value to items. Can be manufactured and made available in most products with production quantities as low as 1,000 pieces.

## Customer Service

Our professional customer service associates are eager to help answer questions and solve problems! You can contact us toll free for guidance and great customer care.

Customer Service: 1(800) 344-5716

For your convenience and order processing speed we accept:

### Hot Stamp Labeling

An economical way to customize with up to two colors. *\*Injection mold products only*

### Engraving

We use lid and base inserts on our stock boxes and cases. This allows you the flexibility to insert a custom engraved company logo and/or design plate on one or both sides. *\*Injection or blow mold products*

### In-Mold Decorating

High quality, multi-color graphic labeling. The result - better product presentation with guaranteed straight, crisp, clear graphics that are impervious to most chemicals. *\*Injection or blow mold products*

## Adhesive Labels

Adhesive-backed labels available and factory supplied. *\*Injection mold products only*

## Custom Interiors

Choose from custom mold interiors or custom foam interiors for that polished, professional look.

Mold Interior

Foam Interior

## Color Options

Flambeau offers a selection of color resins. Custom blended colors available upon request.

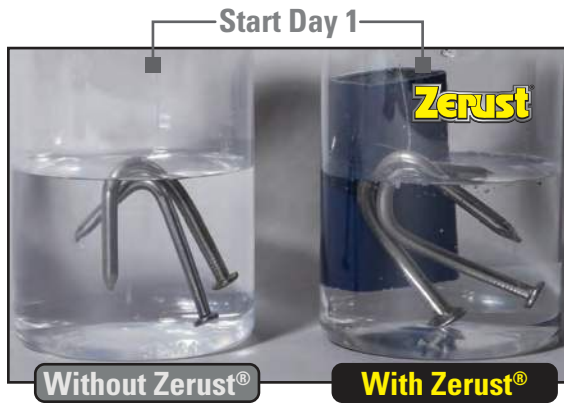

**No Rust With Zerust®**

Zerust® has proven to be the absolute best way to protect your equipment against rust & corrosion. The Zerust VCI (Vapor Corrosion Inhibitor) is mold-  
ed directly into many Flambeau® products. Zerust's

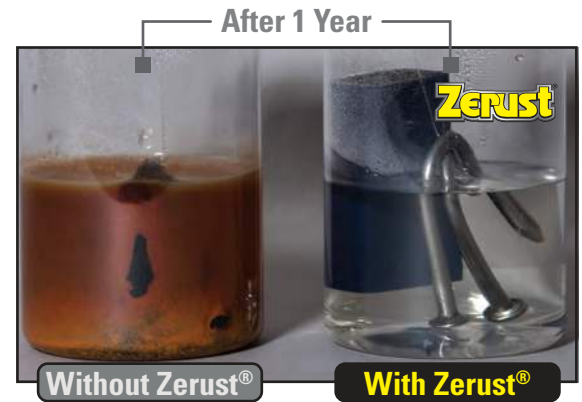

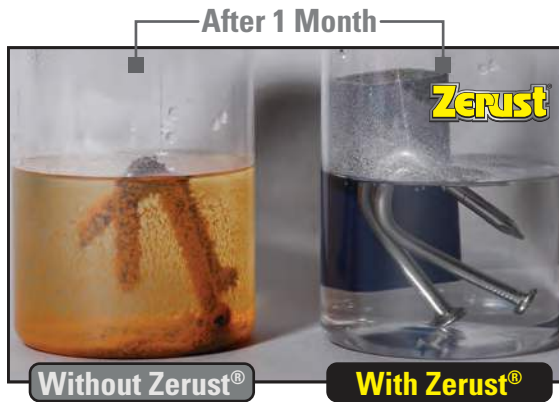

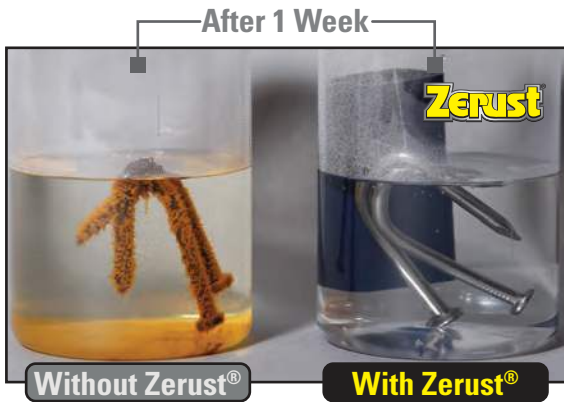

patented polymer emits a harmless vapor, forming a protective layer around metal surfaces. All Zerust products will maintain their effectiveness for up to five years of hassle free, long lasting protection.

Look for the Zerust symbol next to those products that feature this revolutionary technology. This is just another innovation from Flambeau... your most trusted source in storage.

*Flambeau Zerust helps to increase efficiency, saves money and, most importantly, protect tools and hardware from rust and tarnish.*

Zerust® is a registered trademark of Northern Technologies International Corporation (NTIC). ©2021 Flambeau Inc.

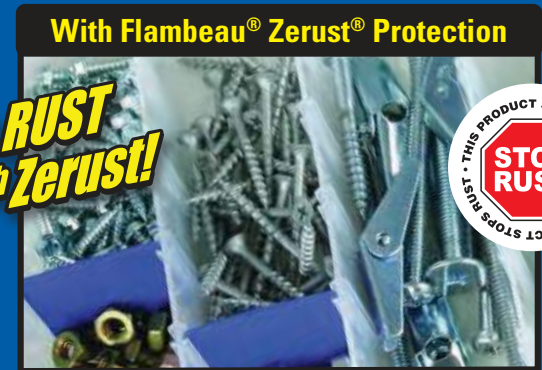

Zerust® is the oldest, most proven effective VCI, (Vapor Corrosion Inhibitor) in the industry! Flambeau®

Zerust Anti-Tarnish provides a solution to the corrosion problem by providing a safe, long-term protective shield. This additive

forms a harmless protective layer preventing tarnishing for up to five years.

Flambeau stocks select Super Satchels™ and Tuff Tainers® with Anti-Tarnish or Zerust molded directly into the product. Most products incorporating the Anti-Tarnish or Zerust features are available through our Special Order Program and may require certain minimum quantities.

### Zerust® Dividers:

Having Zerust molded directly into the dividers themselves creates a harmless vapor barrier around your parts inhibiting corrosion for up to five years (see first chart).

Zerust is a registered trademark of Northern Technologies International Corporation.

### Anti-Tarnish Dividers:

Molded directly into the dividers forming a harmless protective layer around non-ferrous metals such as silver, gold and copper and will prevent tarnishing for up to 5 years!

# Black Ribbon™

Flambeau offers a product line of water resistant cases available in six sizes! These extremely durable cases feature a metal front cam locking mechanical latch system and external rubber bumpers for impact absorption, skid resistance, and greater durability. Made of tough, impact-resistant ABS plastic, these cases are available with or without foam, as well as die-cut foam should you require more protection for your valuables. Black Ribbon cases are excellent for outdoor use in demanding environments and are ideal for storing and protecting cell phones, electronic devices, jewelry, small tools, components and more!

# Linesman Case

The Linesman Case is very unique yet versatile. This 43" long case is designed for multiple storage applications---long and deep enough to store and protect everything from fishing rods to small rifles, and everything in-between. The ergonomic offset handle helps balance the heaviest loads during transport.

**Features:**

- Deep 6" base
- (4) Locking points
- Ergonomic off-set handle
- Tough ABS latches
- Piano-style hinge construction
- Stackable

**7450AP** 7450AP

**7450BG** 7450BG

## 8 Pistol Linesman Case

Finally a case large enough to hold your firearm collection! Protected with foam, the pistols sit vertically along the 42 inch case with easy access to the grips. The flexible foam allows for any size pistol to fit nicely in each pre-cut slot. There's even enough room for an extra magazine next to each pistol.

## The "P" Series, (the "Pin-Hinge" Case)

The "P" series case is a Flambeau® original and has a proven track record in most industries and applications. This is a "pin-hinge" style high-density polyethylene (HDPE) blow mold case. The routed

base option is designed to accommodate our standard solid foam or diced foam set and is available in a variety of sizes and depths *(see pages 28 - 29)*

### Features:

- Heavy-duty latches
- Double wall protection
- Impervious to most chemicals
- Crush-resistant
- Stackable

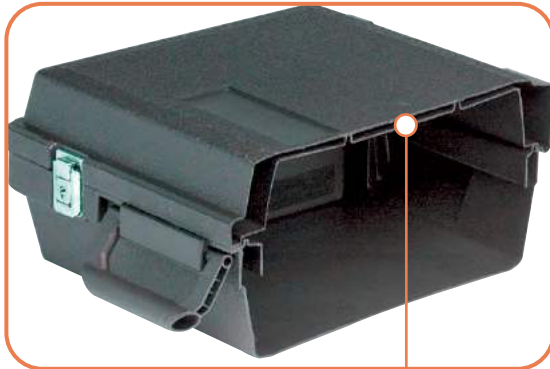

*See ordering selection and information on pages 28 -29*

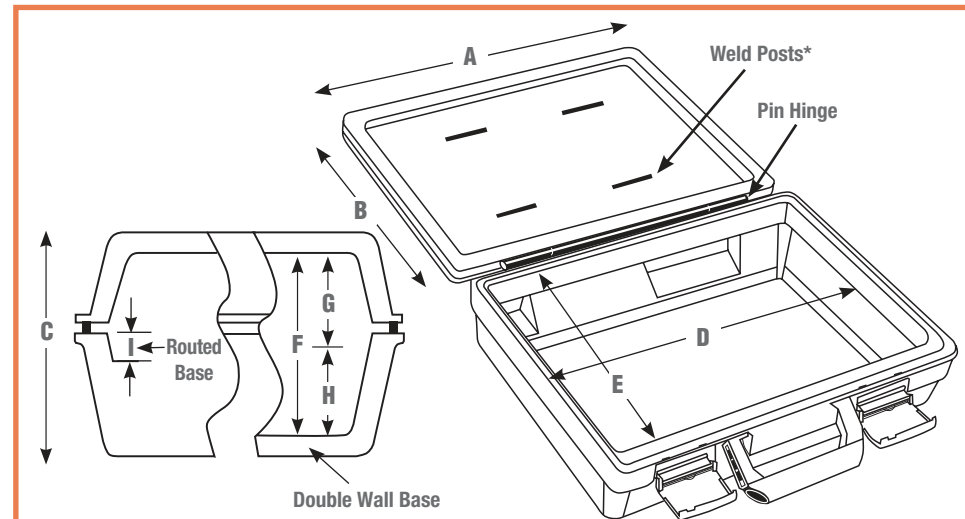

# Additional Features and Options

## The "P" Series Cases

The "P" Series is easily customized through engraving, printing, labeling, custom colors, die-cut foam, molded interiors and in-mold decorating (molded into the case) which is nearly indestructible.

Double Wall Protection

# The Defender®

The combination of high-density polyethylene and double wall construction offers increased product protection. Can be customized through in-mold permanent label, logo engraving, custom colors, foam or molded interior.

Telescoping Handle

### Case Options:

Pressure Valve Release

Wheel Assembly

## The Defender®...Just In Case!

**Defender 12**

**Defender 18**

**Defender 23**

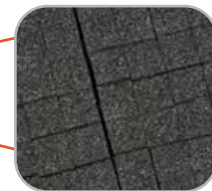

**Defender 26**

**Defender 17**

**Features:**

- ABS latches and steel pin-hinge construction
- Rear feet detail (offers stability for upright display)
- Exterior banding strap feature (allows case to be used as a shipping container)
- Water-resistant
- Chemical-resistant
- Crush-resistant
- Stackable

Diced Foam Option

# Airmold® R-Series Case

The “R” series case features an integral hinge and latch system. This simple and reliable blow mold case is our most economical case offering. Constructed from high-density polyethylene (HDPE), this case is tough enough for almost any challenge. Available as a double wall case or with a routed base to accommodate foam, this case offers maximum protection. A broad range of sizes and depths are available.

**Features:**

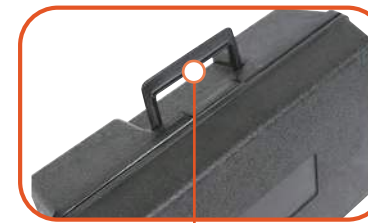

- Integral hinge and latch
- Crush-resistant
- Options: double wall protection or routed base for foam insert

**Drawing Key**

A = Outside Length	B = Outside Width	C = Overall Outside Depth
D = Inside Length	E = Interior Width	F = Overall Inside Depth
G = Inside Lid Depth	H = Inside Base Depth	I = Routed Depth

\* Number of weld posts may vary

# The Airmold® R-Series

**\* Please Note: The Airmold Series is production-run only, no stock. See ordering selection and information on pages (37 - 39)**

# Vision 20™

The Vision 20 combines blow mold and injection mold technologies resulting in an innovative solution for packaging and merchandising! The base is made with double wall blow mold construction. The lid is manufactured w/an "ultra-clear" injection mold terpolymer resin. The result is a startling efficient carrying case offering limitless customized options with "window-like" clarity lids for interior viewing!

### Features:

- "Window-like" clarity lids
- Double wall base construction allows for custom molded interiors
- (2) Locking points

- Gray with "window-like" view
- Clear lid made of Terpolymer

**50900**®  
50900

Interior Dimensions (L x W x D):  
17-3/4" x 12-3/4" x 5-1/2" (45.09 x 32.39 x 13.99 cm)  
Packed: 1/ctn

- Gray with "window-like" view

# Double Wall Shipper Mailers

Reusable shipping containers from Flambeau will help you save money and give you the durability needed to protect your cargo while in transit. Our blow mold mailers feature double wall construction and are stackable. Offered with our standard convoluted foam, they are designed to protect even the most sensitive cargo. Lids and bases are separate pieces for loading convenience and feature overlapping positive edges to reduce lid movement and provide a natural dust barrier. Made of high-density polyethylene (HDPE) our mailers are impervious to most common chemicals and gasoline.

**Features:**

- Convoluted foam in the lid and base
- Double wall construction
- Crush-resistant and stackable

## Double Coverage™ Rifle Case

Flambeau® is excited to offer the Double Coverage Rifle Case as part of Flambeau's extensive line of weapon storage products. The case is manufactured with a double wall of HDPE plastic that forms the base and lid components. Air pockets created between the two walls during blow molding provide superior shock and impact resistance resulting in an extremely heavy-duty carrying case that performs as well or better than heavy-wall injection mold products. The case fits one scoped rifle or shotgun up to 47.5" long.

### Features:

- Easily stacks for shipment and stands for display
- (4) Large over-center ABS latches
- Off-the-shelf availability
- Four (4) Tamper-resistant heavy duty steel lid-to-base pin hinges
- Built-in lock points to secure contents
- Permanent integral handle
- Convoluted foam in lid & base
- Customizable features include die cut foam and molded interior

## Atlas 12 Case

**NEW**

Metal insert lock holes located to side of each latch for added security

Over-center latches, automatic pressure relief valve and overmold handle

First in a new family of cases engineered for demanding industrial, commercial and military applications. The Atlas 12 is built with heavy wall, high-impact polypropylene material and is waterproof when submerged. Designed to be ATA (Air Transport Association) compliant, featuring an automatic pressure relief valve, metal insert lock holes, an overmold handle and single-throw, over center, hardened ABS latches. A tongue-and-groove, lid-to-base fit is incorporated into the design, with stacking and standing features and multiple decorating options for private labeling. The Atlas 12 also accommodates stock and/or custom foam interiors with mounting positions for lid or base pallets.

### Features:

- Made from high-impact polypropylene
- Over-center latches
- Pressure relief valve
- Steel pin hinges
- Stackability feature
- ATA compliant

## 8 Pistol Linesman Case

Finally a case large enough to hold your firearm collection! Ships complete with lid and base foam set designed to hold up to (8) firearms. Flexible foam allows for any size pistol to fit nicely in the slot. There's even enough room for an extra magazine next to each pistol.

## Stop Rust Gun Plug

Designed to protect valuable firearms up to 3 years from rusting during storage. Simply insert plug into barrel of gun and let the protection begin!

**3 YEAR**  
**ZERUST**  
**PROTECTION**

The Stop Rust Gun Plug fits firearms ranging from .22 caliber to a 28 gauge shotgun

**NEW** Zerust® Toolboxes

**Protect your equipment  
from the elements!**

New Flambeau® Zerust® Toolboxes come with patented Zerust Anti-Rust protection to keep your tools and fasteners from rusting. All boxes include an overmolded seal to keep out the elements and provide an enclosed environment for harmless Zerust vapor to form an invisible protective coating on your tools. Lockable metal latches allow you to secure your investment.

**Features:**

- Zerust corrosion protection
- Water-resistant seal
- Lockable with steel latches

(See following page)

## Rust and Corrosion Inhibitors...The Best Way to Protect Your Valuable Investments!

Flambeau's EXCLUSIVE Zerust® products are the absolute best way to protect your gear from rust and corrosion. Molded into many Flambeau products, this patented polymer emits an odorless harmless vapor, forming a protective layer around metal surfaces for years of hassle-free, long-lasting rust and corrosion protection. Look for the Zerust symbol for products that include Zerust!

Flambeau Utility Series Tool Boxes are far superior to other industrial tool boxes. Built with heavy-wall co-polymer polypropylene, the utility series will out-perform it's competition. Our heavy-duty cantilever trays are secured by rust-resistant hardware for extra longevity.

**Features:**

- Resistant to oil and common chemicals
- Tip-Guard™ (cantilever trays only)
- Removable interior trays
- Dent-proof and scratch resistant
- Lockable

**When You Need To It's Protected!**

# Utility Boxes

Flambeau Utility Boxes feature spacious open interiors and are manufactured from light-weight copolymer resins that are non-conductive, dent-proof, rust-proof and scratch-resistant.

### Features:

- Brass hinge and latch pins, tough recessed handles
- Positive action latches
- Models 1800 and 2100 have (2) 3/16" (2.06 cm) lock tabs
- Textured finish and tongue-and-groove construction

## Big Mouth™ Toolbox

Flambeau Inc. is pleased to introduce the Big Mouth Toolbox to its Utility Toolbox line of products. This compact toolbox made of olive green polypropylene features increased base storage volume, carry handle, comfortable snap-shut latch and two lock holes for extra security.

The all-weather, oil-resistant construction, along with the water-resistant fit of the tongue-and-groove design between lid and base keep the contents secure and protected.

The Big Mouth Toolbox can also be customized by adding a company logo or a custom interior to provide your product or kit with a secure fit.

### Features:

- Increased base storage volume
- Proprietary all-weather, oil-resistant construction
- Tongue-and-groove design between the lid and base yields a water-resistant fit
- Carry handle
- Comfortable snap-shut latch
- (2) Lock holes for extra security

**NEW**

## Industrial Satchels: Large

Flambeau's Industrial Satchel Cases are ideal for maintenance, repair and operation (MRO) environments. These industrial satchels are built tough and designed to sort, store and organize nuts, bolts, fasteners and other maintenance items. Tinted lid provides excellent clarity. Base, dividers, handle and latches made with impact resistant polypropylene.

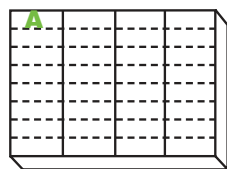

### Features:

- Can be customized (color and company logo)
- Rust-proof heavy-duty hinges

## IDS™ Cabinets - (Infinite Divider Storage™ System)

A hybrid between mobile and stationary storage, these cabinets have interlocking grooves for easy and secure stacking. The IDS™ system truly gives you mastery over your storage space with (5) IDS translucent boxes featuring dividers that can be placed every 1/16" (0.16 cm) throughout the compartments!

### Features:

- Infinite Divider System™ (IDS)
- Resistant to oil & common chemicals
- Interlocking stackable cabinets
- Dent-proof
- Fully extendable drawers
- Removable cases

Dividers can be placed at 1/16" (0.16 cm) increments throughout the entire box

Designed to safely store prescription medications from inquisitive eyes.

## ScriptSafe® Case

ScriptSafe® is a heavy-duty plastic carrying case with patented locking features designed to safely store and help secure prescription medications. Two of the three configurations feature a “cam-actuated” locking mechanism which locks the case down—while the contents inside remain locked.

**Features:**

- Steel hinge pin construction
- Tamper resistant hinge segments
- Patented “Lockdown” features (models 6526MD and 6527MD)
- Includes 2 keys

Guard Against Expensive Damage

Static Dissipative Slim Line™ Box

The Static Dissipative Slim Line™ Box has been engineered to protect ESDs (electrostatic-sensitive devices). This box is manufactured with static

dissipative material that protects computer cards, chips and circuits from harmful static electricity. This product has an ESD protection range of  $1 \times 10^6$  -  $1 \times 10^{10}$ .

# Conductive Cases

## Options:

- Clear conductive window (Special order styles only)
  - Easy part identification without compromise of Faraday Cage protection
- Grounding Snap
  - Reduces surface charges so the case can be safely opened without damaging contents
- Antistatic or conductive foam
  - (Conductive quoted separately)
  - (Antistatic included upon request, foam is glued into the case)
  - Provides physical shock resistance, reduces the potential for static build-up and arc due to the low friction coefficient of the foam

## Technical Data:

- Surface resistivity  $10^{10}$ - $10^{11}$  (ASTM D 257 / ESD S11.11)
- Static decay <2.0 seconds (MIL-PRF-81705D)

## Features:

- Double wall construction - maximum physical protection
- Locking tabs (select items)
- Secure positive, integral double latches
- ESD protection
- Reusable and stackable

## Precision - Series

## Styrene Butadiene Methyl Methacrylate

- Clarity\*
- Impact Resistance
- Chemical Resistance

Molded from styrene butadiene methyl methacrylate, this box features transparent clarity and impact resistance. The Precision excels in wet applications with its rust-proof hinge.

\* Adding color to the resins effects the clarity of the finished product

 1 Compartment	<b>4040-2</b>	6740AA	<b>Precision-Series</b>	SBMM	8-3/4" x 4-5/16" x 1-1/4" (22.23 x 10.95 x 3.18 cm)	24/ctn

Highly recommended for individual seeking a tough compartmentalized case with a clear finish to store and protect valuable parts or everyday items.

PRECISION-SERIES

## Diamondback™ - Series

## Styrene

- Clarity\*
- Impact Resistance
- Chemical Resistance

With a slight architectural edge radius and rounded corners, this box is crystal clear and is excellent for merchandising and general display of products. This box also has small stacking feet to keep displays neater and features an easy open hinge.

US Patent D412,786

\* Adding color to the resins effects the clarity of the finished product

**SIZE RANGE** 4-1/2" x 2-11/16" x 1.0" (11.43 x 6.83 x 2.54 cm) — 7.0" x 3-3/8" x 1-1/8" (17.78 x 8.57 x 2.86 cm)

DIAMONDBACK™ SERIES

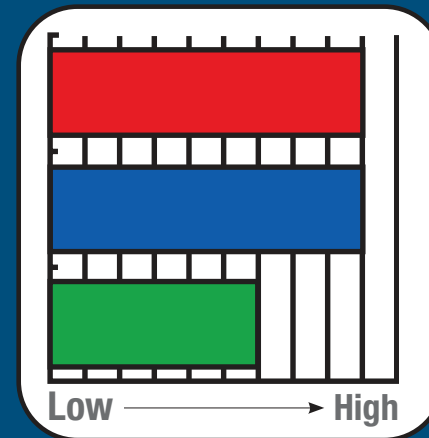

Quickly view the contents from the outside with this high clarity compartment box. This series is also FDA approved.

## Mighty-Tuff™ - Series

Just as the name implies, the Mighty-Tuff is tough!

## Cellulose Propionate

- Clarity\*
- Impact Resistance
- Chemical Resistance

This transparent cellulose propionate material excels in industrial and institutional environments. With a double metal hinge you can be sure that this box will take almost any punishment you can give it.

\* Adding color to the resins effects the clarity of the finished product

**MIGHTY-TUFF™ SERIES**

M-Series

Polypropylene

- Clarity\*
- Impact Resistance
- Chemical Resistance

Extra heavy-duty construction makes the polypropylene M-Series boxes tough and durable. These workhorse boxes feature a heavy-duty, heat-sealed hinge and overlapping lid to inhibit dust. Impervious to most household chemicals, solvents, oil and gasoline, these boxes keep items safe and organized.

Our "M-Series" boxes are manufactured in the "safety yellow" color.

**SIZE RANGE** 4-3/8" x 2-5/8" x 1.0" (11.11 x 6.67 x 2.54 cm) — 8.0" x 4.0" x 1-3/16" (20.32 x 10.16 x 3.02 cm)

## Tuff Tainer®-Series

## Polypropylene

- Clarity\*
- Impact Resistance
- Chemical Resistance

The Tuff Tainer® is made with polypropylene and features a detachable lid and movable dividers that allow you to configure the compartment space to your liking. The majority of these boxes include two positive locking latches and will resist most common chemicals, gasoline and oil.

**SIZE RANGE** 4-5/16" x 2-5/8" x 1-1/8" (10.95 x 6.67 x 2.86 cm) — 10-1/2" x 6-1/4" x 1-1/2" (26.67 x 15.88 x 3.81 cm)

## IDS™ -Series Boxes

## Polypropylene

- Clarity\*
- Impact Resistance
- Chemical Resistance

Our Infinite Divider System™ (IDS) box, made of polypropylene, features patented flexibility by allowing each divider to be moved 1/16" (0.16 cm) along the ribbed compartment. Select IDS boxes fit the IDS Cabinet shown on (page 75).

**SIZE RANGE** 6-5/8" x 3-3/8" x 1-5/16" (16.83 x 8.57 x 3.33 cm) — 13-1/8" x 8-7/8" x 1-15/16" (33.34 x 22.54 x 4.92 cm)

## T-Series

## Polypropylene

- Clarity\*
- Impact Resistance
- Chemical Resistance

T-Series boxes provide the same durable construction as the popular M-Series, but are made with translucent polypropylene. These boxes are perfect for “visualizing” components within the box. The T-Series are impervious to most household chemicals, solvents, and gasoline. Great for storage and protection.

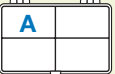

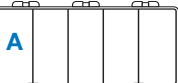

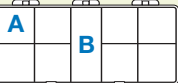

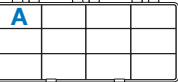

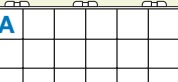

**SIZE RANGE** 4.0" x 3-3/8" x 13/16" (10.16 x 8.57 x 2.06 cm) — 8.0" x 4.0" x 1-3/16" (20.32 x 10.16 x 3.02 cm)

## By Size Of Compartments: Large to Small

With the industry's largest selection of sizes and material types you can expect to find what you need right on our shelf. Yet, even with over 300 stock choices, sometimes we have a request for a unique size or compartment configuration. If so, please let us know. Most of our products can be altered to accommodate a special material or core

(compartment) requirement for your project. Finally, we will accommodate you by building a tool specifically for your project right with our Technologies Tool Group.

**To help you find what you need we have added a size reference chart that lists all of Flambeau's compartmented boxes from their smallest to largest dimension.**
