Details

- Kit repairs cuts, tears and burns in automotive leather and vinyl
- Color matching guide helps customize the color
- Textured grain papers help match coarse to smooth pattern
- An inexpensive option for repairing minor damage
- Complete kit includes supplies, tools and directions

3M™ Leather and Vinyl Repair Kit patches tears, burns and cuts in automotive upholstery. Using our repair kit improves the appearance of damaged leather and vinyl, as well as potentially stops the damage from getting worse. Because a tear or cut can spread if left unchecked, it is advisable to complete the repair as soon as possible. Complete directions are included.

Repair leather and vinyl tears, burns and cuts

Repair Automotive Upholstery

3M™ Leather and Vinyl Repair Kit mends damaged car upholstery that has been cut, torn or burned. Minor damage to leather and vinyl is a common problem, but it can be easily fixed with our repair kit. Patching holes in leather and vinyl immediately improves the appearance of a car's interior and helps maintain the vehicle's value. With the complete directions that are included in the kit, it's easy to achieve a quality repair with little cost.

Customize the Color and Texture to Match Your Vehicle's Upholstery

We made our kit to help you match the leather and vinyl in your vehicle. We include a variety of colors and grain papers in the kit. You'll also find a color matching guide to help determine the correct color for your vinyl or leather. Our kit includes replacement backing fabric, seven colored intermixable repair compounds (red, blue, green, yellow, white, brown, black), assorted textured grain papers (coarse to smooth patterns), mixing cups, vinyl swatch for testing, vinyl adhesive, applicator tool, and a heat transfer tool.

We Recommend Our 3M™ Leather and Vinyl Repair Kit for Damage on a Variety of Surfaces Including:

- Car seats and upholstery
- Dashboards
- Motorcycle seats
- Center consoles
- Vinyl tops
- Marine and RV upholstery
- Furniture
