ESD Protection On the Go

When it comes to Electrostatic Damage (ESD) there is no point in taking risks. Whether you are away from the workbench, or you don't have a workbench at all, this anti-static mat will ensure that your sensitive electronics are well protected.

Not to be confused with our other anti-static mat, this mat is easily folded, stuffed, and moved. But, that doesn't mean it will falter in protecting your electronics from static damage. This mat includes the grounding wire/clip and wrist strap.

Specifications

- Dimensions: 24" x 24" (60 x 60 cm)
