- > just one tool for almost 1,000 crimping applications
- > parallel crimping die movement
- > repetitive, high crimping quality due to precision dies and integral lock (self-releasing mechanism)
- > crimping pressure has been set precisely (calibrated) in the factory
- > optimum transmission of force due to lever action for fatigue-reduced operation
- > comfortable handle design
- > different locators for precise positioning of the connectors
- > additional crimp dies available upon request
- > chrome vanadium electric steel in special quality; oil-hardened
