

JST SH 9-Pin Cable – 100mm long

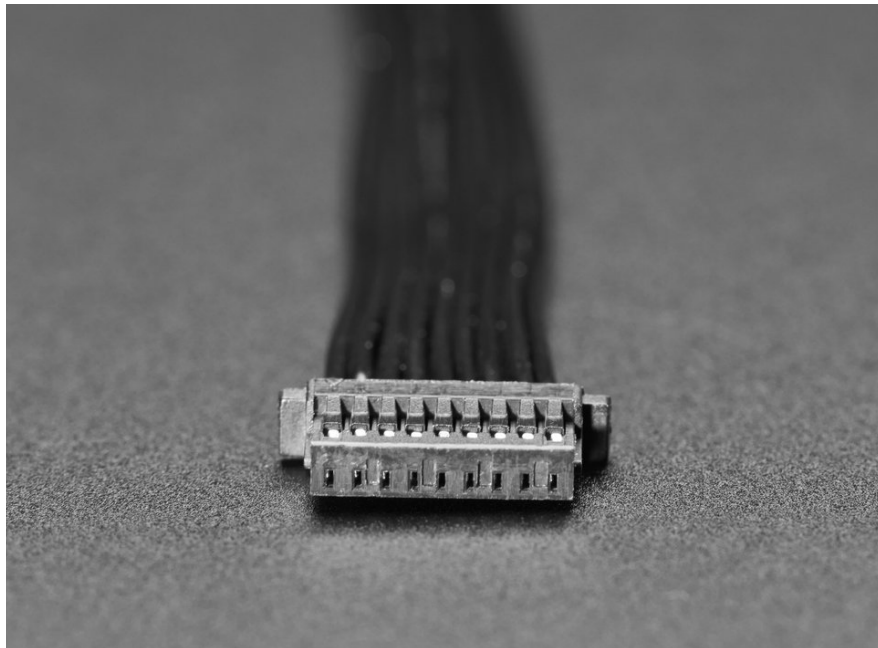

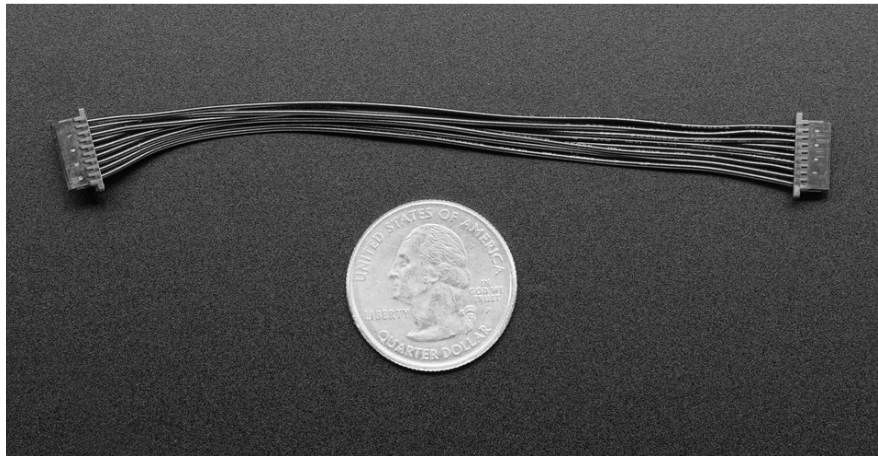

PRODUCT ID: 4350

This 9-pin cable is just about 100mm / 4" long and fitted with JST-SH female connectors on both ends. Compared with chunkier JST-PH these are 1mm pitch instead of 2mm, but still have a nice latching feel and are easy to insert and remove.

We got these especially for our fantastically spooky Adafruit MONSTER M4SK in case you'd like to split the mask in two and re-wire!

For more information about JST SH connectors, visit the [JST website](#).
