

18" Flex Arms

with 360° Ball Joint

18" Flexible gooseneck arm
Easily bends to the required position and stays in place.

360° rotatable ball joint
Rotates in all directions. Inspect from any angle.

Stable Flexibility

Aven's 18" Cyclops Flex Arms add a new level of versatility to inspection systems by giving users the freedom to inspect from virtually any angle or working distance. Simply bend the flexible arm to the desired position. Features a 1/4" screw bit, making these arms compatible with Aven's Cyclops Digital Microscopes, as well as most retail cameras and inspection cameras.

1/4" screw mount
Compatible with most retail cameras and Aven's Cyclops Digital Microscope
