

Particle FeatherWing Tripler

Perfect for any prototyping project, the Tripler provides space to add-on up to two FeatherWing accessories without any stacking header needs. Compatible with the newest generation of Particle developer kits (Particle Mesh).

The Tripler has three breakouts for each pin on a Feather, as well as plain grid proto holes. In addition, three sets of pins are cross connected with a full strip of connected pads for GND and 3.3V

- **Includes:**
- One Tripler printed circuit board (PCB)
- Three sets of FeatherWing headers

Note: some soldering required.
