SKU:DFR0418

INTRODUCTION

This product is expected to be available at the end of Feb, 2017

LattePanda is a complete a mini computer integrated with Arduino running full verions Windows 10.

It includes everything a regular PC has and can do anything that a regular PC does. It is compatible with almost every gadget you know: printers, joysticks, cameras and more. Any peripherals that work on your PC will work on LattePanda.

LattePanda comes pre-installed with a pre-activated full edition of Windows 10, including powerful tools such as Visual Studio, NodeJS, Java, Processing, and more. Using existing APIs, you can develop your own software and hardware projects on LattePanda as you would on a normal PC - C#, Javascript, Ruby and so on. Say goodbye to your bulky laptop!

But not only can it be used as a low cost regular Windows computer! LattePanda is also designed with an Arduino compatible co-processor, which means it can be used to control and sense the physical world, just like an Arduino board! Whether you are a Windows developer, an IoT developer, a hardware DIY fanatic, interactive designer, robotics whizz, or a maker, LattePanda can aid your creative process with physical computing projects!

LattePanda can run full version of windows 8/10 and Ubuntu.
