## Data sheet

## US2:17GUG82XF

Non-reversing motor starter Size 2 1/2 Three phase full voltage Solid-state overload relay OLRelay amp range 25-100A 110VAC 50HZ / 120VAC 60HZ coil Combination type 100A non-fusible disconnect Encl NEMA type 4X 316 S-steel Water/dust tight non-corrosive Extra-wide enclosure

Figuresi	imilar
----------	--------

product brand name	Class 17 & 25
design of the product	Full-voltage non-reversing motor starter with non-fusible disconnect
special product feature	ESP200 overload relay; Half-size controller
General technical data	
Height x Width x Depth [in]	36 × 24 × 8 in
touch protection against electrical shock	(NA for enclosed products)
installation altitude [ft] at height above sea level maximum	6560 ft
ambient temperature [°F]	
<ul> <li>during storage</li> </ul>	-22 +149 °F
during operation	-4 +104 °F
ambient temperature	
<ul> <li>during storage</li> </ul>	-30 +65 °C
<ul> <li>during operation</li> </ul>	-20 +40 °C
Horsepower ratings	
yielded mechanical performance [hp] for 3-phase AC motor	
• at 200/208 V rated value	15 hp
• at 220/230 V rated value	20 hp
<ul> <li>at 460/480 V rated value</li> </ul>	30 hp
<ul> <li>at 575/600 V rated value</li> </ul>	30 hp
Contactor	
size of contactor	Controller half size 2 1/2
number of NO contacts for main contacts	3
operational current at AC at 600 V rated value	60 A
mechanical service life (switching cycles) of the main contacts typical	1000000
Auxiliary contact	
number of NC contacts at contactor for auxiliary contacts	0
number of NO contacts at contactor for auxiliary contacts	1
number of total auxiliary contacts maximum	7
contact rating of auxiliary contacts of contactor according to UL	10A@600VAC (A600), 5A@600VDC (P600)
Coil	
type of voltage of the control supply voltage	AC
control supply voltage	
<ul> <li>at AC at 50 Hz rated value</li> </ul>	110 V
at AC at 60 Hz rated value	120 V
holding power at AC minimum	8.6 W
apparent pick-up power of magnet coil at AC	218 VA

annerent helding neuron of annered of the CAO	
apparent holding power of magnet coil at AC	25 VA
operating range factor control supply voltage rated value of magnet coil	0.85 1.1
percental drop-out voltage of magnet coil related to the input voltage	50 %
ON-delay time	19 29 ms
OFF-delay time	10 24 ms
Overload relay	
product function	
<ul> <li>overload protection</li> </ul>	Yes
<ul> <li>phase failure detection</li> </ul>	Yes
<ul> <li>asymmetry detection</li> </ul>	Yes
<ul> <li>ground fault detection</li> </ul>	Yes
test function	Yes
external reset	Yes
reset function	Manual, automatic and remote
trip class	CLASS 5 / 10 / 20 (factory set) / 30
adjustable current response value current of the current- dependent overload release	25 100 A
make time with automatic start after power failure maximum	3 s
relative repeat accuracy	1 %
product feature protective coating on printed-circuit board	Yes
number of NC contacts of auxiliary contacts of overload relay	1
number of NO contacts of auxiliary contacts of overload relay	1
operational current of auxiliary contacts of overload relay	
• at AC at 600 V	5 A
• at DC at 250 V	1 A
contact rating of auxiliary contacts of overload relay according to UL	5A@600VAC (B600), 1A@250VDC (R300)
insulation voltage (Ui)	
<ul> <li>with single-phase operation at AC rated value</li> </ul>	600 V
<b>5 1 1</b>	
<ul> <li>with multi-phase operation at AC rated value</li> </ul>	300 V
with multi-phase operation at AC rated value Disconnect Switch	300 V
Disconnect Switch	
Disconnect Switch response value of switch disconnector	300 V 100A / 600V non-fusible
Disconnect Switch response value of switch disconnector design of fuse holder	100A / 600V non-fusible
Disconnect Switch response value of switch disconnector design of fuse holder operating class of the fuse link	100A / 600V
Disconnect Switch response value of switch disconnector design of fuse holder operating class of the fuse link Enclosure	100A / 600V non-fusible non-fusible
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating	100A / 600V non-fusible non-fusible 4X, 316 stainless steel
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing	100A / 600V non-fusible non-fusible 4X, 316 stainless steel
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf·in] for supply	100A / 600V         non-fusible         non-fusible         4X, 316 stainless steel         Extra-wide         dustproof, waterproof & resistant to corrosion         vertical         Surface mounting and installation         Box lug         120 120 lbf-in
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug 120 120 lbf·in
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum         permissible	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug 120 120 lbf-in 75 °C
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum         permissible         material of the conductor for supply	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug 120 120 lbf-in 75 °C AL or CU
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum         permissible         material of the conductor for supply         type of electrical connection for load-side outgoing feeder	100A / 600V non-fusible non-fusible 4X, 316 stainless steel Extra-wide dustproof, waterproof & resistant to corrosion vertical Surface mounting and installation Box lug 120 120 lbf-in 75 °C AL or CU Box lug
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum         permissible         material of the conductor for supply         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG         cables for load-side outgoing feeder single or multi-	100A / 600V         non-fusible         non-fusible         4X, 316 stainless steel         Extra-wide         dustproof, waterproof & resistant to corrosion         vertical         Surface mounting and installation         Box lug         120 120 lbf-in         75 °C         AL or CU         Box lug         45 45 lbf-in
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf-in] for supply         temperature of the conductor for supply maximum         permissible         material of the conductor for supply         type of electrical connection for load-side outgoing feeder         tightening torque [lbf-in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG         cables for load-side outgoing feeder single or multi-         stranded         temperature of the conductor for load-side outgoing feeder	100A / 600V         non-fusible         4X, 316 stainless steel         Extra-wide         dustproof, waterproof & resistant to corrosion         vertical         Surface mounting and installation         Box lug         120 120 lbf-in         75 °C         AL or CU         Box lug         45 45 lbf-in         1x (14 2 AWG)
Disconnect Switch         response value of switch disconnector         design of fuse holder         operating class of the fuse link         Enclosure         degree of protection NEMA rating         design of the housing         design of the housing         design of the housing         Mounting/wiring         mounting position         fastening method         type of electrical connection for supply voltage line-side         tightening torque [lbf in] for supply         temperature of the conductor for supply maximum         permissible         material of the conductor for supply         type of electrical connection for load-side outgoing feeder         tightening torque [lbf in] for load-side outgoing feeder         type of connectable conductor cross-sections at AWG         cables for load-side outgoing feeder single or multi-         stranded         temperature of the conductor for load-side outgoing feeder         maximum permissible	100A / 600V         non-fusible         non-fusible         4X, 316 stainless steel         Extra-wide         dustproof, waterproof & resistant to corrosion         vertical         Surface mounting and installation         Box lug         120 120 lbf-in         75 °C         AL or CU         Box lug         45 45 lbf-in         1x (14 2 AWG)         75 °C
Disconnect Switch           response value of switch disconnector           design of fuse holder           operating class of the fuse link           Enclosure           degree of protection NEMA rating           design of the housing           design of the housing           design of the housing           mounting/wiring           mounting position           fastening method           type of electrical connection for supply voltage line-side           tightening torque [lbf-in] for supply           temperature of the conductor for supply maximum           permissible           material of the conductor for supply           type of electrical connection for load-side outgoing feeder           tightening torque [lbf-in] for load-side outgoing feeder           type of connectable conductor cross-sections at AWG           cables for load-side outgoing feeder single or multi-           stranded           temperature of the conductor for load-side outgoing feeder           maximum permissible           material of the conductor for load-side outgoing feeder	100A / 600V         non-fusible         4X, 316 stainless steel         Extra-wide         dustproof, waterproof & resistant to corrosion         vertical         Surface mounting and installation         Box lug         120 120 lbf-in         75 °C         AL or CU         Box lug         45 45 lbf-in         1x (14 2 AWG)         75 °C         AL or CU

coil at AWG cables single or multi-stranded		
temperature of the conductor at magnet coil maximum permissible	75 °C	
material of the conductor at magnet coil	CU	
type of electrical connection for auxiliary contacts	Screw-type terminals	
tightening torque [lbf·in] at contactor for auxiliary contacts	10 15 lbf·in	
type of connectable conductor cross-sections at contactor at AWG cables for auxiliary contacts single or multi- stranded	1x (12 AWG), 2x (16 14 AWG), 2x (18 16 AWG)	
temperature of the conductor at contactor for auxiliary contacts maximum permissible	75 °C	
material of the conductor at contactor for auxiliary contacts	CU	
type of electrical connection at overload relay for auxiliary contacts	Screw-type terminals	
tightening torque [lbf·in] at overload relay for auxiliary contacts	7 10 lbf·in	
type of connectable conductor cross-sections at overload relay at AWG cables for auxiliary contacts single or multi- stranded	2x (20 14 AWG)	
temperature of the conductor at overload relay for auxiliary contacts maximum permissible	75 °C	
material of the conductor at overload relay for auxiliary contacts	CU	
Short-circuit current rating		
design of the fuse link for short-circuit protection of the main circuit required	10kA@600V (Class H or K); 100kA@600V (Class R or J)	
certificate of suitability	NEMA ICS 2; UL 508; CSA 22.2, No.14
