

BU-P6358

(Test Lead Pair: Banana Plug to Retractable Banana Plug, Silicone, 48")

- Mueller's BU-P6358 is a pair of 48" long test leads with shrouded, 4mm banana plugs on one end and retractable, 4mm banana plugs on the other.
- The retractable banana plug has a spring-loaded sheath that insulates the banana plug when not mounted and slides back into the housing when connected to a non-shrouded banana jack.
- Constructed with 18 AWG (413 strand), UL 3577, highly flexible silicone test lead wire.
- Material:

Wire insulation	Silicone
Banana plugs	Nickel-plated brass, beryllium copper
Housings	Polypropylene, nylon
- Rating:

Current	20 Amps
Voltage	1000 V
