

Why Extreme Blue?

The money savings:

- No more estimating (or guessing!) workers' hours.
- Eliminates math errors when calculating time.

The time savings:

- Workers clock in right at the jobsite.
- Payroll prep takes minutes, not hours.

The bottom line:

- Pays for itself in just weeks!

TimePilot Extreme Blue: Weatherproof and linebacker-tough

Electronic time clock downloads employee hours to your smartphone! Cut checks right at the jobsite!

The Clock

- Rugged construction; handles rain, snow, cold, heat, dust, etc.
- Holds 12,000 clock-ins and clock-outs from up to 2,000 employees.
- Powered by 4 AA batteries that last a year. No cabling needed.
- Padlock it to its steel mounting plate (both included!) to prevent theft.

Clocking in after a blizzard.

The App

- Wirelessly downloads the data collected by one or more clocks to your iPhone® or Android™ smartphone.
- Calculates your employees' hours—including OT—right on your smartphone.
- **Creating reports? Multiple worksites? Upgrade to Extreme Blue Enhanced!** This upgrade adds Windows software to manage data collected by all your smartphones.

What's an iButton?

It's a key-sized, rugged identification device that is unaffected by water and most chemicals. iButtons are more reliable than biometrics for identifying individuals and can be reassigned quickly and securely. This product comes with 10 iButtons. It can handle up to 2,000; just add iButtons!

How does it work?

1 Employees clock in or out with just a tap of their iButton.

2 When it's time for payroll, use your smartphone to collect the data via Bluetooth.

3 Our smartphone app calculates employee work hours right on your phone.

The TimePilot Extreme Blue time clock system is designed and built by TimePilot in the USA
