## Item description

This digital output module controls actuators operating in Zone 0+1 hazardous areas.

Intrinsically safe valves can be directly controlled.

The WAGO I/O System 750 must be installed either in Zone 2 or in a non-hazardous area.

All outputs are electronically short-circuit-protected.

Indicators:

- Green LED (output status)
- Red LED (wire breakage, short circuit)

Field and system levels are electrically isolated.

Subject to changes. Please also observe the further product documentation!

## Data Notes

### Note

The digital output module must only be operated via 24 VDC Ex i!

General information (e.g., installation regulations) on explosion protection is available in the WAGO I/O System 750 manuals!
