Bridgelux LED Array Series

Data Sheet: BXRA-25E4000-H-00

Description

Warm White RS Array – Bread Array

Performance:

Color: Warm White

Nominal CCT: 2500K

CRI (minimum): 80

Typical Flux (25°C): 3600 lumens

Drive Current: 2100 mA

Forward Voltage (typical): 23.5V

Power Consumption (typical): 49.4 W

Features

- · Compact high flux density light source
- Uniform high quality illumination
- Streamlined thermal path
- More energy efficient than incandescent, halogen and fluorescent lamps
- Low voltage DC operation
- Instant light with unlimited dimming
- 5-year warranty
- · RoHS compliant and Pb free
