

iPixel Wall Adapter Cable - Two Terminal (NA)

CAB-14603 ROHS

These Wall Adapter Cables from iPixel are terminated with a standard North American (NEMA 5–15P) plug at one end and two insulated spade terminal connectors at the other. Each cable is 1m long and provides a safe and appropriate way to hook up our Mean Well LED Power Supplies!

Each spade terminal has been colored for your convenience.

Warning: Please keep be careful with the spade terminals when the cable is plugged into the wall. Touch the terminals while powered could result in injury.
