

Stanley Electric's Ultra High-Power IR LEDs

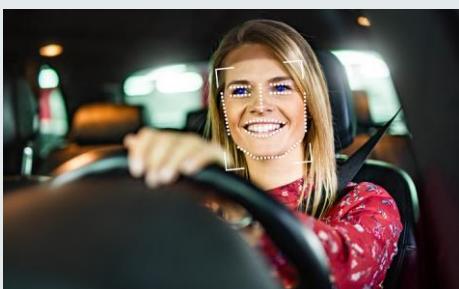

Automotive quality High-power

High radiant flux / low thermal resistance,
high reliability package

◆ Applications

Automotive

DMS (Driver Monitoring System)

Gesture control

OMS (Occupancy Monitoring System)

◆ Features

- Suitable for automotive interior applications (AEC-Q102 compliant)
- Light distribution variations to suit various applications (narrow light distribution 45°, 60° / wide light distribution 120°)
- Industry-leading high luminous efficiency
- Low thermal resistance due to high heat dissipation design
