

Current Sensor HCM 500A-0-50-SB4-0

Part number	20 31 050 0104
Specification	Current Sensor HCM 500A-0-50-SB4-0
HARTING eCatalogue	https://b2b.harting.com/20310500104

Image is for illustration purposes only. Please refer to product description.

Identification

Category	Current measurement
Series	НСМ
Element	Current sensor
Sensor technology	Hall-Effekt Closed loop
Features	Hall effect compensated current sensorMeasurable currents: AC, DC, pulsed, mixedHigh accuracy over the entire measuring rangeGalvanic insulation between primary and secondary currentSwitchboard mountingHousing material and potting mass have a flammability rating UL 94 V-0Applications: frequency converters, electrical drives, switched mode powersuppplies, UPS

Version

Termination	3x steel screw M4
Field of application	Industrial version

Technical characteristics

IPN Nominal primary current	500 A
IPM Primary current, measuring range	0 ±800 A
R _M Measuring resistance @ I _{PM max} , U _{C max} , T _{A max}	≤45 Ω For other primary currents see diagram.
I _{SN} Nominal secondary current	100 mA
K _N Turns ratio	1 : 5000
U _C Power supply	±15 ±24 V ±5 %

Technical characteristics

CE

I _C Current consumption @ U _{C min}	20 mA + I _S
X Overall accuracy @ I _{PN} , T _A = 25 °C	±0.6 %
E _L Linearity	<0.1 %
I _O Offset current @ I _P = 0 A, T _A = 25 °C	±0.4 mA
I_{OT} maximum temperature drift of I_{O}	±0.7 mA
t _r Response time @ I _{PN}	<1 µs
di/dt with optimal coupling	>100 A/µs
f Frequency	0 100 kHz
T _A Ambient temperature	-40 +85 °C
T _S Storage temperature	-45 +90 °C
R_S Secondary coil resistance @ $T_{A\ max}$	82 Ω
U _D Test voltage, effective (50 Hz, 1 min)	3 kV Primary - secondary
U_{St} Rated impulse voltage (1,2/50 $\mu\text{s})$	10 kV
U _B Rated voltage	600 V
Overvoltage category	III
Pollution degree	2
L _s Clearance distance	24.8 mm
K _s Creepage distance	24.8 mm
Tightening torque	3.2 Nm (3x steel screw M5 - Vertical) 3.2 Nm (4x steel screw M4 - Horizontal)
Material properties	
Material (hood/housing)	Polycarbonate (PC)
Material flammability class acc. to UL 94	V-0
Specifications and approvals	
Specifications	EN 50178 IEC 61373

HARTING Stiftung & Co. KG | Marienwerderstr. 3 | 32339 Espelkamp | Germany

Yes

Specifications and approvals

Approvals	DNV GL
Commercial data	
Packaging size	1
Net weight	264.23 g
Country of origin	Romania
European customs tariff number	90303370
eCl@ss	27210902 Current transformer

Measuring resistance

 $U_C = \pm 24 V - 5 \%$, $I_A = 85 °C$ --- $U_C = \pm 15 V - 5 \%$, $T_A = 85 °C$ Primary currents higher than I_{PM} only for peak!

Remark

- If I_P flows in the direction of the arrow I_S is positive.
- Over currents (»IPN) or the missing of the supply voltage can cause an additional permanent magnetic offset.
- The temperature of the primary conductor may not exceed 100 °C.

Safety note

These transformers may only be used in electrical or power electronic applications which fulfill the relevant regulations (standards, EMC requirements,...).

This transformer must be used in limited-energy secondary circuits according to IEC 61010-1.

Caution, risk of electric shock

- Pay attention to protect non-insulated high-power current carrying parts against direct contact (e.g. with a protective enclosure).

- When installing this sensor please make sure that the safe separation (between primary circuit and secondary circuit) is maintained over the whole circuits and their connections.

- The sensor may only be connected to a power supply respecting the SELV/PELV protective regulations according to EN 50 178. The installation of the power supply must be short-circuit-proof.

- Disconnecting the main power must be possible.

- The current sensors support a safe separation. The creepage and clearance distances are taken as a basis for the rated voltage. They are the shortest distance between the secondary connection and the sensor's window. The actual clearance and creepage distances depend on the position of the primary conductor respectively on the actual shortest distance between the primary conductor and the secondary connection.
