

USB-C to HDMI Adapter USB31-HDMI-9

This USB-C™ to HDMI® adapter lets you output HDMI video and audio from a USB Type-C™ device such as a MacBook or Chromebook™ laptop. This adapter works with USB-C devices that pass a DisplayPort video signal.

Ultimate portability

This USB type-C video adapter is highly portable with a small footprint and lightweight design. The adapter is the perfect accessory for your MacBook or Chromebook, fitting easily into your laptop bag or carrying case, which is great for BYOD (Bring Your Own Device) applications at the office.

Hassle-free connection with USB Type-C

This adapter lets you utilize the versatile USB Type-C port on your portable device. USB Type-C is a reversible connector, so it doesn't matter which way you plug it in, the adapter will always work, saving you the hassle and embarrassment of fiddling with your device when you're trying to deliver a presentation.

Astonishing picture quality

At four times the resolution of high-definition 1080p, you'll be amazed at the picture quality of a 4K monitor or television. The adapter lets you harness the video capabilities built into your USB Type-C connection, to deliver the astonishing quality of Ultra HD to your 4K display. 4K resolution gives you additional screen space to simplify

without us, you are just not connected! ■

your approach to detailed work such as editing video and viewing large spreadsheets. Plus, the adapter is backward compatible with 1080p displays, which makes it a great accessory for home, office or other workspace applications.
