Non-reversing motor starter Size 1 3/4 Three phase full voltage Solid-state overload relay OLRelay amp range 10-40a 24VAC 50-60HZ coil Combination type 40AMP circuit breaker Enclosure NEMA type 4/12 Water/dust tight for outdoors Extra-wide enclosure

product brand name	Class 18 & 26
design of the product	Full-voltage non-reversing motor starter with motor circuit protector
special product feature	ESP200 overload relay; Half-size controller
General technical data	
Height x Width x Depth [in]	24 × 20 × 8 in
touch protection against electrical shock	NA for enclosed products
installation altitude [ft] at height above sea level maximum	6560 ft
ambient temperature [°F]	
<ul> <li>during storage</li> </ul>	-22 +149 °F
<ul> <li>during operation</li> </ul>	-4 +104 °F
ambient temperature	
<ul> <li>during storage</li> </ul>	-30 +65 °C
<ul> <li>during operation</li> </ul>	-20 +40 °C
Horsepower ratings	
yielded mechanical performance [hp] for 3-phase AC motor	
• at 200/208 V rated value	0 hp
<ul> <li>at 220/230 V rated value</li> </ul>	0 hp
• at 460/480 V rated value	15 hp
<ul> <li>at 575/600 V rated value</li> </ul>	15 hp
Contactor	
size of contactor	Controller half size 1 3/4
size of contactor number of NO contacts for main contacts	Controller half size 1 3/4 3
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz	3
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum	3 600 V
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum operational current at AC at 600 V rated value mechanical service life (operating cycles) of the main contacts	3 600 V 40 A
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum operational current at AC at 600 V rated value mechanical service life (operating cycles) of the main contacts typical	3 600 V 40 A
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum operational current at AC at 600 V rated value mechanical service life (operating cycles) of the main contacts typical Auxiliary contact	3 600 V 40 A 10000000
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum operational current at AC at 600 V rated value mechanical service life (operating cycles) of the main contacts typical Auxiliary contact number of NC contacts at contactor for auxiliary contacts	3 600 V 40 A 10000000
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts	3 600 V 40 A 10000000 0 1
number of NO contacts for main contacts operating voltage for main current circuit at AC at 60 Hz maximum operational current at AC at 600 V rated value mechanical service life (operating cycles) of the main contacts typical Auxiliary contact number of NC contacts at contactor for auxiliary contacts number of NO contacts at contactor for auxiliary contacts number of total auxiliary contacts maximum	3 600 V 40 A 10000000 0 1 8
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz         maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL	3 600 V 40 A 10000000 0 1 8
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600)
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL         Coil         type of voltage of the control supply voltage	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600)
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL         Coil         type of voltage of the control supply voltage         control supply voltage	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600) AC
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL         Coil         type of voltage of the control supply voltage         control supply voltage         • at AC at 50 Hz rated value	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600) AC 24 V
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL         Coil         type of voltage of the control supply voltage         e at AC at 50 Hz rated value         e at AC at 60 Hz rated value	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600) AC 24 V 24 V
number of NO contacts for main contacts         operating voltage for main current circuit at AC at 60 Hz         maximum         operational current at AC at 600 V rated value         mechanical service life (operating cycles) of the main contacts typical         Auxiliary contact         number of NC contacts at contactor for auxiliary contacts         number of NO contacts at contactor for auxiliary contacts         number of total auxiliary contacts maximum         contact rating of auxiliary contacts of contactor according to UL         Coil         type of voltage of the control supply voltage         e at AC at 50 Hz rated value         at AC at 60 Hz rated value         holding power at AC minimum	3 600 V 40 A 10000000 0 1 8 10A@600VAC (A600), 5A@600VDC (P600) AC 24 V 24 V 24 V

magnet coil	
percental drop-out voltage of magnet coil related to the input 50 % voltage	
ON-delay time 19 29 ms	
OFF-delay time 10 24 ms	
Overload relay	
product function	
overload protection     Yes	
phase failure detection     Yes	
asymmetry detection     Yes	
ground fault detection     Yes	
• test function Yes	
external reset Yes	
	hatic and remote
	/ 20 (factory set) / 30
adjustable current response value current of the current- dependent overload release	
make time with automatic start after power failure maximum 3 s	
relative repeat accuracy 1 %	
product feature protective coating on printed-circuit board Yes	
number of NC contacts of auxiliary contacts of overload relay 1	
number of NO contacts of auxiliary contacts of overload relay 1	
operational current of auxiliary contacts of overload relay	
• at AC at 600 V 5 A	
• at DC at 250 V 1 A	
contact rating of auxiliary contacts of overload relay according to 5A@600VAC UL	B600), 1A@250VDC (R300)
insulation voltage (Ui)	
with single-phase operation at AC rated value     600 V	
with multi-phase operation at AC rated value     300 V	
Enclosure	
design of the housing dustproof, wat	erproof & weatherproof
design of the housing dustproof, wat Circuit Breaker	erproof & weatherproof
Circuit Breaker	erproof & weatherproof otector (magnetic trip only)
Circuit Breaker	
Circuit Breaker         type of the motor protection       Motor circuit protection         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A	
Circuit Breaker         type of the motor protection       Motor circuit protection         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous short-circuit trip unit       115 375 A	
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous short-circuit trip unit       115 375 A         Mounting/wiring       40 A	
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous short-circuit trip unit       115 375 A         Mounting/wiring       Vertical	otector (magnetic trip only)
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A         short-circuit trip unit       Mounting/wiring         mounting position       Vertical         fastening method       Surface mounting	
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A         short-circuit trip unit       Mounting/wiring         mounting position       Vertical         fastening method       Surface mounting         type of electrical connection for supply voltage line-side       Box lug         type of connectable conductor cross-sections at line-side for       1x (10 AWG	rotector (magnetic trip only)
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A         short-circuit trip unit       Mounting/wiring         mounting position       Vertical         fastening method       Surface mounting         type of electrical connection for supply voltage line-side       Box lug         type of connectable conductor cross-sections at line-side for AWG cables single or multi-stranded       1x (10 AWG	rotector (magnetic trip only)
Circuit Breaker         type of the motor protection       Motor circuit protection         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous short-circuit trip unit       115 375 A         Mounting/wiring       115 375 A         mounting position       Vertical         fastening method       Surface mount         type of electrical connection for supply voltage line-side       Box lug         type of connectable conductor cross-sections at line-side for AWG cables single or multi-stranded       1x (10 AWG         temperature of the conductor for supply maximum permissible       75 °C	rotector (magnetic trip only)
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A         short-circuit trip unit       115 375 A         Mounting/wiring       Vertical         mounting position       Vertical         fastening method       Surface mount         type of electrical connection for supply voltage line-side       Box lug         type of connectable conductor cross-sections at line-side for       1x (10 AWG         AWG cables single or multi-stranded       75 °C         material of the conductor for supply       AL or CU	rotector (magnetic trip only) ing and installation 1/0 AWG)
Circuit Breaker         type of the motor protection       Motor circuit p         operational current of motor circuit breaker rated value       40 A         adjustable current response value current of instantaneous       115 375 A         short-circuit trip unit       115 375 A         Mounting/wiring       Vertical         mounting position       Vertical         fastening method       Surface mountive structure of connectable conductor cross-sections at line-side         type of connectable conductor for supply voltage line-side for AWG cables single or multi-stranded       1x (10 AWG         temperature of the conductor for supply maximum permissible       75 °C         material of the conductor for supply       AL or CU         type of electrical connection for load-side outgoing feeder       Screw-type te	rotector (magnetic trip only) ing and installation 1/0 AWG)

temperature of the conductor at contactor for auxiliary contacts maximum permissible	75 °C
material of the conductor at contactor for auxiliary contacts	CU
type of electrical connection at overload relay for auxiliary contacts	Screw-type terminals
tightening torque [lbf-in] at overload relay for auxiliary contacts	7 10 lbf·in
type of connectable conductor cross-sections at overload relay for AWG cables for auxiliary contacts single or multi-stranded	2x (20 14 AWG)
temperature of the conductor at overload relay for auxiliary contacts maximum permissible	75 °C
material of the conductor at overload relay for auxiliary contacts	CU
Short-circuit current rating	
design of the short-circuit trip	Instantaneous trip circuit breaker
maximum short-circuit current breaking capacity (Icu)	
• at 240 V	100 kA
• at 480 V	100 kA
• at 600 V	25 kA
certificate of suitability	NEMA ICS 2; UL 508; CSA 22.2, No.14
