# MM35-DIN Series for High Power Inrush Current Applications

Ametherm thermistor Inrush Current Limiters have become the industry standard to reduce inrush current across the electronics industry. With the development of Ametherm's **MM35-DIN Series**, Inrush Current Limiters can now take on industrial-strength high power inrush current inrush for high power industrial applications.

## High Power Inrush Current Deserves Industrial Strength Inrush Current Protection

With continuous current ratings from 50A to 80A at 680V RMS and energy to 1,200 joules, the Ametherm MM35-DIN Series of Inrush Current Limiters can handle the high power levels found in the industrial environment.

## Benefits of Employing the MM35-DIN Series

The MM35-DIN Series offer:

- ✓ Higher energy ratings.
- ✓ Ideal for power distribution.
- ✓ Higher continuous current ratings.
- ✓ Ideal for systems that are typically powered on once daily.

- ✓ Single Part Solution. No need for additional by-pass circuitry.

### Single and Three Phase Applications Include:

- ✓ AC Motors.
- ✓ Transformers.
- ✓ Power Supply/Inverters.
- ✓ Refer to the Maximum Power Ratings Chart for more applications.

### SPECIAL INSTRUCTIONS

- ✓ **Inrush Current Limiter Selection Process** – Depending on your equipment and load type and your power requirements, go to the Inrush Current Limiter Selection calculators chart below to determine the right calculations for your application.

MM35-DIN MECHANICAL SPECIFICATIONS	
D	68.0mm Max
T	8.5mm Max
S	34.0mm Nom
L	38.5 mm Nom
A (Lead Width)	9.6mm Nom
B	6.0mm Nom
C (Lead Thickness)	0.8mm Nom
E	5.7mm Nom

### MM35-DIN Series Electrical Specifications

	MM35 0R280-DIN	MM35 0R560-DIN	MM35 1R050-DIN	MM35 1R550-DIN
Resistance @ 25 °C	0.2Ω ± 25%	0.5Ω ± 25%	1.0Ω ± 25%	1.5Ω ± 25%

**MM35-DIN Series Electrical Specifications**

Max Steady State Current to 65°C	80.0 A	60.0A	50.0A	50.0A
Max Recommended Energy Rating ( J )	1200.0 Joules			
Rhot @ 100% Steady State Current	0.004Ω	0.008Ω	0.011Ω	0.013Ω
Rhot @ 75% Steady State Current	0.006Ω	0.011Ω	0.015Ω	0.017Ω
Rhot @ 50% Steady State Current	0.011Ω	0.020Ω	0.030Ω	0.036Ω
Rhot @ 25% Steady State Current	0.029Ω	0.052Ω	0.078Ω	0.091Ω
Max Recommended Voltage	680V RMS			
Max Power	38.4 W			
Thermal Time Constant	< 5 mins			

Elapsed Time After Power Off	Body Temp (°C)
0:00	210
0:30	192
1:00	177
1:30	163
2:00	149
2:30	137
3:00	126
3:30	117
4:00	109
4:30	101
5:00	94

**Steady State Current vs Body Temperature****Ambient Temperature =25 °C**

Steady State Current (A)	MM35 0R280-DIN	MM35 0R560 -DIN	MM35 1R050-DIN	MM35 1R550-DIN

Resistive	Heater/Lamp	Go to Calculator	Go to Calculator

Kit includes: MM35-DIN & DIN Blocks

## MM35-DIN Series Installation

Mounting MM35-DIN Inrush Current Limiters is a snap! Since they are designed for use with DIN blocks, mounting in a power control box requires just a screwdriver.

Whether you're dealing with three-phase or single-phase power, the MM35-DIN Series of Inrush Current Limiters is your best choice for your high power application requirements.

Contact us for more information on our MM35-DIN Series of Inrush Current Limiters. Our engineers are always available to assist you.
