

BOX FOR ARDUINO YÚN

Code: M000008

This is protective case designed specifically for the Arduino Yun

OVERVIEW

- The case is a two-piece injection-moulded ABS enclosure that snaps together around the Arduino YUN. Holds the Arduino YUN firmly in place. It provides tough protection for the Arduino YUN while providing access to all Arduino Mega's connectors. Includes reset key for use with the board's reset button. Secondary screw-mounting points for securing your Arduino YUN. Access to all Arduino YUN connectors.
Note: board not included

TECH SPECS

Measures: 3.93 in x 2.55 in x 1.18 in
