

200ft CAT6 Outdoor-Rated Shielded Ethernet Cable Kit with Waterproof Coupler - White E08-200WOU-KT

This Micro Connectors outdoor-rated CAT 6 shielded cable kit is perfect for your indoor office or outdoor house cabling project. This quality cable is made to withstand rugged outdoor environment providing UV and water resistant along with shielding to maximize performance by minimizing EMI/RFI and eliminating crosstalk. It comes with metal shielded RJ45 connector installed along with a IP68 waterproof coupler to extend your outdoor connection. The cable kit is made with pure bare copper conductors for better conductivity and supports Power over Ethernet devices.

- UV and water resistant designed to withstand sunlight, dirt, and moisture.
- Metal shielded RJ45 connectors installed with strain relief for convenience
- Overall Aluminum Shielding Twisted Pair (F/UTP) cable to eliminate electrical interference
- Shielded waterproof coupler included for extending your connection
- Ideal for data, voice and security applications requiring outdoor placement
- Supports Power over Ethernet: PoE, PoE+, and PoE++
- Meets ANSI/TIA-568-C specifications and UL, RoHS and TAA compliant

Cable Length: 200 ft

without us, you are just not connected!
