The Jonard all-in-one coring tools provide a complete coring solution for .500", .625", .750", and .875" hardline cables. These tools include a jacket stripper at the front of the tool, a coring tool with an adjustable center conductor beveller and a stop to insure consistent coring lengths with a comfortable ratcheting handle.
This tool features the following:

- T handle is a ratcheting handle for increased comfort and faster coring. Tool can perform both coring and stripping simultaneously
- T handle can be removed allowing the user to attach a drill to make coring even easier
- Replacement blades and coring bits can be purchased separately (no need to ever replace the entire tool)
- The jacket stripper is removable so you can use it as a standalone jacket stripper or just use the coring portion
- Tools are designed to work on Commscope P3 and Times Fiber T10 cables
