

## Wyr-Grid<sup>®</sup> Splice Connectors

- Integral bonding screw creates a mechanical electrical bond between cable tray pathway sections
- Standard finish is black powder coat

**WGSPL1218BL****WGSPL2430BL****WGINTSPLBL**

Part Number	Part Description	Std. Pkg. Qty.	Std. Ctn. Qty.
<b>WGSPL1218BL</b>	Straight splice connector quickly joins two 12" (305mm) or 18" (457mm) wide Wyr-Grid <sup>®</sup> Pathways together. A thread cutting screw pierces the paint of adjacent pathway sections providing a completely bonded connection, ensuring electrical continuity between the pathways.	1	10
<b>WGSPL2430BL</b>	Straight splice connector quickly joins two 24" (610mm) or 30" (762mm) wide Wyr-Grid <sup>®</sup> Pathways together. A thread cutting screw pierces the paint of adjacent pathway sections providing a completely bonded connection, ensuring electrical continuity between the pathways.	1	10
<b>WGINTSPLBL</b>	Intersection splice connector quickly joins Wyr-Grid <sup>®</sup> Pathways at all intersections. A thread cutting screw pierces the paint of perpendicular pathway sections providing a completely bonded connection, ensuring electrical continuity between the pathways.	1	10

## Wyr-Grid<sup>®</sup> Waterfalls

- Offered in two different configurations that attach to all pathway sections 12" (305mm), 18" (457mm), 24" (610mm) and 30" (762mm)

**WGBTMWFBL****WGSDDWWF4BL**

Part Number	Part Description	Std. Pkg. Qty.	Std. Ctn. Qty.
<b>WGBTMWFBL</b>	The bottom waterfall provides 1.38" (35mm) bend radius control for cables transitioning down into the racks or cabinets from within the Wyr-Grid <sup>®</sup> Pathway. The waterfalls can be installed side-by-side increasing the overall width of the waterfall. Standard finish is black powder coat.	1	10
<b>WGSDDWWF4BL</b>	The sidewall waterfall provides 3" (76mm) bend radius control for cables transitioning down into the racks or cabinets from the side of the Wyr-Grid <sup>®</sup> Pathway. Cable retaining posts ensure bend radius control as cables traverse from the horizontal into the vertical path. Plastic design offered in black color.	1	—
