

PM1501 ESD Mat Cleaner

STATIC CARE Mat Cleaner is specifically designed for cleaning and maintaining a broad range of static dissipative surfaces. Regular cleaning and detergent compounds destroy the static dissipating properties of highly specialized conductive mats, rendering static control maintenance programs ineffective. STATIC CARE Mat Cleaner removes dirt and soil while maintaining or increasing static dissipative properties. STATIC CARE Mat Cleaner is effective on all types of ESD control matting and hard surfaces such as workbenches, storage racks, and counter tops. STATIC CARE Mat Cleaner may also be used to clean computer screens, computer cases, and plexiglass surfaces. Environmentally safe, it is noncorrosive, non-flammable, and biodegradable.

Features

- Clean and Maintain a broad range of static dissipative surfaces
- Remove dirt and soil while maintain or increasing static dissipative properties

Specifications:

Net Contents: 32 Fluid Ounces (0.95 Liters)

Part Numbers:

PM1501: ESD Mat Cleaner

Applications:

Anti-static matting or anti-static hard surfaces and diluted for computer screens and acrylic surfaces.
