

WBASDM – Conductive Metal ESD Trash Can Dolly

Item #: WBASDM Category: ESD Trash Cans

- Conductive ESD dolly used with the WBAS180 ESD trash can to create a conductive path to the floor that is mobile.
- Two of the Five 3" x " Casters (CDP)3" are conductive; outer mounted for stability
- Industrial aluminum construction
- Wider than plastic dolly Solid aluminum hubs

Description

Quickly move your 44 Gallon ESD Trash with a conductive dolly.

The WBASDM provides a user-friendly solution for heavy ESD trash containers. It locks on to the 44 gallon WBAS180 Transforming Technologies container. The 5 heavy-duty casters provide stability for loads up to 350 lb and two casters are conductive to provide a path to ground for ESD charges.

Features:

- Two of the Five 3" x " Casters (CDP)3" are conductive; outer mounted for stability
- Industrial aluminum construction
- Wider than plastic dolly Solid aluminum hubs
