Load capacity – 180 lbs

Black powder coat finish

Product Specifications: *(for Architects & Engineers)*

The wall flush with tilt mount for large digital signage flat panels shall be the Video Mount Products (VMP) FP-LDSB. The mount shall be designed to attach to at least 2 studs up to 16" apart or other suitable support surface. The mount shall be designed with a section wall plate that can have additional sections (VMP model DS-BP) added to extend the length. The mount shall be constructed primarily of formed steel. The mount shall be capable of tilting from -5° to +15° and the tilt shall be lockable at 5° increments. The adjustable mounting rails shall be capable of accommodating a maximum hole pattern of 810 mm wide and 530 mm tall without extensions and with the rail extensions included with the unit capable of reach a maximum hole pattern height of 810 mm tall. The mount shall be capable of adjusting to accommodate a wide variety of flat panels ranging in size from 42" to 90" and not necessarily be model specific. The load capacity shall be 180 lbs.
