

IMPACT PUNCHDOWN TOOL

Precise, reliable connections every time

KLEIN TOOLS 

IMPACT PUNCHDOWN TOOL

Terminate and cut wire in one step with the MIM (metal injection molding) precision ground combination 66/110 blade. The tool features the traditional punchdown-style form with a cushioned, non-slip handle.

Extended Reach MIM Blade (Cat. No. VDV427-110) for working on active panels with pre-existing connections (sold separately)
