

Riverdi Display 2.8" UXW

PID: MIKROE-2159

Weight: 75 g

Condition: New product

A high-quality cost-effective **2.83'' TFT display** with a projected capacitive touch screen and decorative cover glass (white bezel). Well integrated with MikroElektronika tools.

Also available with <u>black bezel</u>.

The **240x320px** screen is driven by an **FT801** graphic controller which is supported in <u>Visual</u> <u>TFT</u>, the GUI design tool for rapid development of user interfaces.

The **FT801** controller supports multitouch gestures with up to five touches as well as gesture detection for the capacitive touchscreen.

The connector uses an **I2C/SPI** interface. To use it with various MikroElektronika hardware, a Riverdi click adapter board is available (interface between the connector on the display and a mikroBUS TM socket).
