

This 3M™ Peltor™ WorkTunes™ AM/FM radio headset has five AM/FM presets and a 3.5mm jack for audio output. The sound level of the radio is limited to 82 dB. If the reception signal is too weak, the electronics automatically switch to mono for the best possible quality and comprehension.

- Sound is reproduced in stereo with bass
- Short, flexible antenna provides excellent reception with no annoying interference, even in harsh conditions

Specifications
