

## KS50-M10-SS

Ruland KS50-M10-SS, Star Knob, 50mm Knob Diameter, M10 tapped hole, Stainless Steel

### Description

Ruland KS50-M10-SS is a star knob with a 50 mm knob diameter, and M10 tapped hole. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It mates to hardware with M10 threading. The knob and tapped hole are made of AISI CF8 stainless steel with a shot blasted finish. This gives KS50-M10-SS good corrosion resistance capabilities for use in food, packaging, and medical applications. The grooves of the star-shaped knob offer an ergonomical grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to its small dimensions and tool-free operation. KS50-M10-SS is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
