

Downcut Flat Cutter - 0.25in Diameter, #251 (2 Pack)

TOL-15041

DESCRIPTION

This flat mill is perfect for roughing or machining flat or prismatic parts. If you've got a Shapeoko, these are great cutters for the DeWalt trim router

These are downward spiral cutters, ideal to cut laminates and wood without tearing out the top side of the material.

Note: that these have a .250" cutter so if you've got a Nomad, you'll also need a .25" collet TOL-15038.

Note: Care must be used to have adequate chip evacuation.

INCLUDES

- 2x Downcut Flat Cutter - 0.25in. Diameter

FEATURES

- Cutting Diameter: .250"
- Cutting Length: .75"
- Shank Diameter: .250"
