BS120

Photodiode for Visible Light

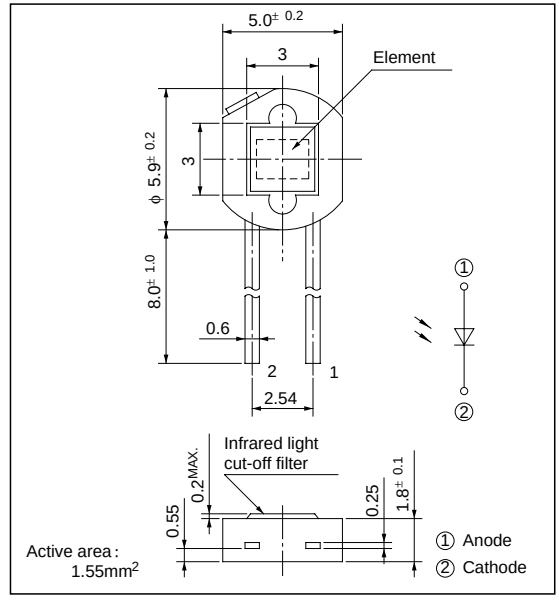
■ Features

1. Spectral sensitivity characteristics akin to that of human eye
2. Compact flat package
3. Low dark current(I_d: MAX. 10^{-11}A at V_R= 1V)
4. Infrared light cut-off type

■ Applications

1. AE (automatic exposure) system and ES (electronic shutter) system for cameras
2. Stroboscopes
3. Precise optical instruments

■ Outline Dimensions (Unit: mm)



■ Absolute Maximum Ratings (Ta= 25˚C)

Parameter	Symbol	Rating	Unit
Reverse voltage	V_R	10	V
Operating temperature	T_{opr}	-20 to + 60	˚C
Storage temperature	T_{stg}	-30 to + 80	˚C
*1 Soldering temperature	T_{sol}	260	˚C

*1 For 10 seconds

■ Electro-optical Characteristics (Ta= 25˚C)

Parameter	Symbol	Conditions	MIN.	TYP.	MAX.	Unit
*2 Short circuit current	I_{SC}	E_V= 100lx	0.14	0.16	0.21	μA
*2 Short circuit current temperature coefficient	β_T	E_V= 100lx	- 0.03	0.02	0.07	%/˚C
Dark current	I_d	V_R= 1V	-	3×10^{-12}	10^{-11}	A
Dark current temperature coefficient	α_T	V_R= 1V	-	3.5	5.0	*3 times/10˚C
Terminal capacitance	C_t	V_R= 0, f= 1MHz	-	-	500	pF
Peak sensitivity wavelength	λ_p	-	500	560	600	nm
*4 Spectral sensitivity infrared radiation ratio	ΔI_R	-	-	6	10	%

*2 E_V: Illuminance by CIE standard light source A(tungsten lamp)

*3 times/10˚C

*4 $\Delta I_R = \frac{I_{SC}(\lambda >= 700nm)}{I_{SC}(\text{full wavelength})} \times 100\%$

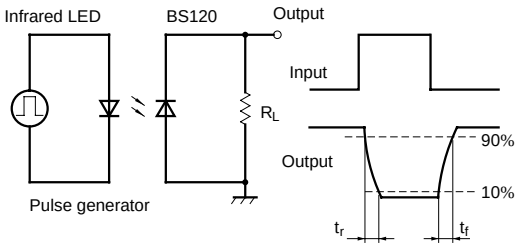
Test Circuit for Response Time



● Please refer to the chapter "Precautions for Use."

NOTICE

- The circuit application examples in this publication are provided to explain representative applications of SHARP devices and are not intended to guarantee any circuit design or license any intellectual property rights. SHARP takes no responsibility for any problems related to any intellectual property right of a third party resulting from the use of SHARP's devices.
- Contact SHARP in order to obtain the latest device specification sheets before using any SHARP device. SHARP reserves the right to make changes in the specifications, characteristics, data, materials, structure, and other contents described herein at any time without notice in order to improve design or reliability. Manufacturing locations are also subject to change without notice.
- Observe the following points when using any devices in this publication. SHARP takes no responsibility for damage caused by improper use of the devices which does not meet the conditions and absolute maximum ratings to be used specified in the relevant specification sheet nor meet the following conditions:

(i) The devices in this publication are designed for use in general electronic equipment designs such as:
- Personal computers
- Office automation equipment
- Telecommunication equipment [terminal]
- Test and measurement equipment
- Industrial control
- Audio visual equipment
- Consumer electronics

(ii) Measures such as fail-safe function and redundant design should be taken to ensure reliability and safety when SHARP devices are used for or in connection with equipment that requires higher reliability such as:
- Transportation control and safety equipment (i.e., aircraft, trains, automobiles, etc.)
- Traffic signals
- Gas leakage sensor breakers
- Alarm equipment
- Various safety devices, etc.

(iii) SHARP devices shall not be used for or in connection with equipment that requires an extremely high level of reliability and safety such as:
- Space applications
- Telecommunication equipment [trunk lines]
- Nuclear power control equipment
- Medical and other life support equipment (e.g., scuba).

- Contact a SHARP representative in advance when intending to use SHARP devices for any "specific" applications other than those recommended by SHARP or when it is unclear which category mentioned above controls the intended use.
- If the SHARP devices listed in this publication fall within the scope of strategic products described in the Foreign Exchange and Foreign Trade Control Law of Japan, it is necessary to obtain approval to export such SHARP devices.
-
- Contact and consult with a SHARP representative if there are any questions about the contents of this publication.
