

## Lead Free **Solder Pot 100W**

The Aven Lead Free Solder Pot is ideal for tinning the ends of stranded wire leads, pre-tinning small electrical parts, re-tinning soldering iron tips and dip soldering small circuit boards. The variable temperature heating element liquifies solder quickly and provides excellent thermal stability. The crucible, with a holding capacity of 250g, is made from stainless steel with titanium plating, featuring corrosion resistance and prolonged service life. The Aven Lead Free Solder Pot is suitable for melting solder, plastic, resin and more.
