CHIP RESISTORS SR series

20%, 10%, 5% 1%, 0.5% sizes 0201/0402/0603/0805/1206/1210/1218/2010/2512 RoHS compliant & Halogen free

Product specification – August 02, 2022 V.10

### YAGEO

#### <u>SCOPE</u>

This specification describes SR0201 to SR2512 chip resistors with lead-free terminations made by thick film process.

#### APPLICATIONS

- Telecommunications
- Power supplies
- Car electronics

#### <u>FEATURES</u>

- AEC-Q200 qualified
- Superior to RC series in pulse withstanding voltage and surge withstanding voltage.
- MSL class: MSL I
- Halogen free epoxy
- RoHS compliant
  - Products with lead-free terminations meet RoHS requirements
  - Pb-glass contained in electrodes, resistor element and glass are exempted by RoHS
- Reduce environmentally hazardous waste

Aug.02, 2022 V.10

• High component and equipment reliability

Part number is identified by the series name, size, tolerance, packaging type, temperature coefficient, taping reel and resistance value.

#### **GLOBAL PART NUMBER**

#### SR XXXX X X X XX XXXX L

(1) (2) (3) (4) (5) (6) (7)

#### (I) SIZE

0201 / 0402 / 0603 / 0805 / 1206 / 1210 / 1218 / 2010 / 2512

#### (2) TOLERANCE

 $D = \pm 0.5\%$   $F = \pm 1\%$   $J = \pm 5\%$   $K = \pm 10\%$  $M = \pm 20\%$ 

#### (3) PACKAGING TYPE

R = Paper taping reel

#### K = Embossed taping reel

#### (4) TEMPERATURE COEFFICIENT OF RESISTANCE

- = Based on spec.

#### (5) TAPING REEL & POWER

- 07 = 7 inch dia. Reel & Standard power 7W = 713 = 13 inch dia. Reel 7T = 7
  - 7W = 7 inch dia. Reel & 2 x standard power 7T = 7 inch dia. Reel & 3 x standard power
- 47 = 7 inch dia. Reel & 4xstandard power

#### (6) RESISTANCE VALUE

#### $\mid \Omega \leq \mathsf{R} \leq \mid \mathsf{M} \mid \Omega$

There are  $2\sim4$  digits indicated the resistance value. Letter R/K/M is decimal point, no need to mention the last zero after R/K/M, e.g. I K2, not I K20.

Detailed coding rules of resistance are shown in the table of "Resistance rule of global part number".

#### (7) DEFAULT CODE

Letter L is the system default code for ordering only.  $^{\left( \text{Note}\right) }$ 

| Resistance rule on number       | of global part                          |
|---------------------------------|---|
| Resistance coding<br>rule       | Example                                 |
| XRXX<br>(I to 9.76 Ω)           | R =   Ω<br> R5 =  .5 Ω<br>9R76 = 9.76 Ω |
| XXRX<br>(10 to 97.6 Ω)          | IOR = IO Ω<br>97R6 = 97.6 Ω             |
| XXXR<br>(100 to 976 <b>Ω)</b>   | 100R = 100 Ω                            |
| XKXX<br>(1 to 9.76 K <b>Ω)</b>  | IK = 1,000 Ω<br>9K76 = 9760 Ω           |
| XXKX<br>(10 to 97.6 K <b>Ω)</b> | 10K = 10,000 Ω<br>97K6= 97,600 Ω        |
| XXXK<br>(100 K <b>Ω)</b>        | 100K = 100,000 Ω                        |

#### **ORDERING EXAMPLE**

The ordering code for an SR0805 chip resistor, value 10 K $\Omega$  with ±5% tolerance, supplied in 7-inch tape reel is: SR0805JR-0710KL.

### 

First two digits for significant figure and 3rd digit for number of zeros

Fig. 3 Value=10 KΩ

#### NOTE

For further marking information, please refer to data sheet "Chip resistors marking".

E-24 series: 3 digits

<u>TAPING REEL & POWER</u>

 $\frac{\text{Product specification}}{10} \frac{4}{10}$ 

#### **CONSTRUCTION**

The resistor is constructed on top of a high-grade ceramic body. Internal metal electrodes are added at each end and connected by a resistive glaze. The resistive glaze is covered by a lead-free glass. The composition of the glaze is adjusted to give the approximately required resistance value. The whole element is covered by a protective overcoat. The top of overcoat is marked with the resistance value. Finally, the two external terminations (Ni/matte tin) are added, as shown in Fig.4.

#### FUNCTIONAL DESCRIPTION

OPERATING TEMPERATURE RANGE

#### Range: –55 °C to +155 °C

#### **POWER RATING**

Each type rated power at 70 °C: SR0201: 1/20W, 1/10W, 1/5W SR0402: 1/16W, 1/8W, 1/5W SR0603: 1/10W, 1/5W, 1/4W, 1/3W SR0805: 1/8W,  $\Phi/4W$ , 1/3W $_{2}$  1/2W SR1206: 1/4W, 1/2W, 3/4W, 1W SR1210: 1/2W, 1W SR1218: 1W, 1.5W SR2010: 3/4W, 1.25W SR2512: 1W, 2W

#### **RATED VOLTAGE**

The DC or AC (rms) continuous working voltage corresponding to the rated power is determined by the following formula:

 $V = \sqrt{(P \times R)}$ 

#### Where

V = Continuous rated DC or AC (rms) working voltage (V)

P = Rated power (W)

 $R = Resistance value (\Omega)$

Chip Resistor Surface Mount SR Series 0201

0201/0402/0603/0805/1206/1210/1218/2010/2512

- Add SR0402 7T (triple power), SR0805 47 (quadruple power),

- Change to dual brand datasheet that describes SR0805 to SR2512 with

- Update SR0603 Dielectric Withstanding Voltage to 150V

- Update 7T power for 0603/0805 & 7W for 1210

SR2512 7W (double power)

- Comply with AEC-Q200 standard

- Update electrical characteristic

- Update 7T power for 1206

- Add SR0402/0603/1210

- Define global part number

**RoHS** compliant

| DATE          | CHANGE NOTIFICATION | DESCRIPTION  |
|---------------|---------------------|--|
|               |                     | - Merge F/D tol  |
|               |                     | Add size 0201  |
| Aug. 02, 2022 | _                   | Upgrade the working voltage of 0402 to 75V   |
| Aug. 02, 2022 |                     | Upgrade the working voltage of 0603 to 150V  |
|               |                     | Upgrade the working voltage of 0805 to 500V  |
|               |                     | 12 dimension updated, for size 1206, size 2010, size 2512                                  |
| Aug. 04, 2021 | -                   | - Upgrade to Automotive Grade  |
| Jul. 22, 2019 | -                   | - Update power rating  |
| C             |                     | - Extend resistance range of 0402 ~ 2512 to 1Mohm,   |
|               |                     | - Tighten TCR of all sizes for 10 $\Omega$ < R $\leq$ 1M $\Omega$ from $\pm$ 200 ppm/°C to |
| Sep. 27, 2018 | -                   | ± 100 ppm/°C   |
|               |                     | - Add SR1210, SR1218, SR2010 7W (double power)   |

#### LEGAL DISCLAIMER

YAGEO, its distributors and agents (collectively, "YAGEO"), hereby disclaims any and all liabilities for any errors, inaccuracies or incompleteness contained in any product related information, including but not limited to product specifications, datasheets, pictures and/or graphics. YAGEO may make changes, modifications and/or improvements to product related information at any time and without notice.

YAGEO makes no representation, warranty, and/or guarantee about the fitness of its products for any particular purpose or the continuing production of any of its products. To the maximum extent permitted by law, YAGEO disclaims (i) any and all liability arising out of the application or use of any YAGEO product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for a particular purpose, non -infringement and merchantability.

YAGEO products are designed for general purpose applications under normal operation and usage conditions. Please contact YAGEO for the applications listed below which require especially high reliability for the prevention of defects which might directly cause damage to the third party's life, body or property: Aerospace equipment (artificial satellite, rocket, etc.), Atomic energy-related equipment, Aviation equipment, Disaster prevention equipment, crime prevention equipment, Electric heating apparatus, burning equipment, Highly public information network equipment, data-processing equipment, Medical devices, Military equipment, Power generation control equipment, Safety equipment, Traffic signal equipment, Transportation equipment and Undersea equipment, or for any other application or use in which the failure of YAGEO products could result in personal injury or death, or serious property damage. Particularly **YAGEO Corporation and its affiliates do not recommend the use of commercial, automotive, and/or COTS grade products for high reliability applications or manned space flight.** 

Information provided here is intended to indicate product specifications only. YAGEO reserves all the rights for revising this content without further notification, as long as products are unchanged. Any product change will be announced by PCN.
