

RG-58C cable is a type of high-frequency coaxial cable which offers improved shielding and lower signal loss compared to similar cables. As such, it is ideal for many military & civil radio frequency (RF) operations including cable television (CATV/MATV), telecommunications, WiFi/network antennas, laboratory benches, and ham/CB/other radio setups, as well as any other signal transfer applications in fields such as aerospace, scientific, and medical. Furthermore, this cable type is approved for direct burial.

The cable consists of a stranded inner conductor composed of tinned copper wire, which is then surrounded by a polyethylene dielectric tube. Outside the dielectric is a shield, which is also made of tinned copper. Covering all of this is a black, non-contaminating PVC jacket for additional physical protection. For your convenience, we offer this cable in several cable lengths (see below).

- Cable Type: RG-58C/U coaxial cable
 - Overall Diameter: 0.195" [4.95 mm]
 - Inner Conductor: 19 strands of 0.0071" tinned copper
 - Outer Diameter: 0.0355" [0.90 mm]
 - Dielectric Insulator: Solid, low density polyethylene (PE)
 - Outer Diameter: 0.116" [2.95 mm]
 - Shield: Tinned copper braid
 - Jacket: Black, non-contaminating polyvinyl chloride (PVC), Type IIA per MIL-C-17
- Impedance: 50 Ω
 - Capacitance: 30.8 pF/ft
 - Operating Frequency: 5.0 GHz
 - Voltage Rating: 1900 V_{RMS} Maximum
 - Temperature Rating: -40°C (-40°F) to 80°C (176°F)
 - RoHS Compliant & suitable for direct burial
- Cable Lengths Available: 1 ft, 2 ft, 4 ft, 10 ft, 25 ft, 50 ft, 100 ft, 250 ft
 - Remington Industries also offers pre-made [coaxial cable assemblies](#) fitted with a variety of RF connectors to best suit your application

RG-58C/U Coaxial Cable Data Sheet

Remington Industries is proud to offer our Custom Wire Services

Our exclusive inventory of in-stock wire and ability to procure wire of all kinds makes us the perfect partner for wire purchasing and custom wire services. We are proud to provide essential, high quality wire for engineering projects, educational science projects, coil winding, and electronics applications.

Some of our many wire services include the following:

- Wire Re-Packaging
- Bifilar & Trifilar Windings
- Wire Processing
- Coil Winding
- Wire Procurement Services

If you have any questions or need any information about our [Wire Services](#), feel free to contact us! It only takes one call to get experienced assistance.
