Product Description These two-piece fasteners offer a simple and versatile method of bundling and mounting cables up to 4.3" (110 mm) to a panel up to 6.0 mm thick using an oval hole. The fir tree will easily push into pre-punched holes in panels or threaded blind holes and offers a secure fit. The two-piece design enables the head of the tie to be oriented in the required position to ease assembly, while the disc on top of the fir tree covers the hole and minimizes the ingress of water and dirt.
