Sodium bitartrate Data Sheet

Catalog sizes	100g , Listed as 100g Sodium bitartrate, 100BIT13 500g , Listed as 500g Sodium bitartrate, 500BIT13 1kg , Listed as 1kg Sodium bitartrate, 1000BIT13
Category	Levulinate and Other Salts
Product specification	White granular powder <ul style="list-style-type: none">• Product ID : BIT13• Purity : 98%+• CAS : 526-94-3• Molecular formula : C₄H₅NaO₆• MW : 172.07g/mol• MP : 250-256C• Solubility : 85-93g/L in water
Product description	Sodium bitartrate (sodium hydrogen tartrate) is a monosodium salt of tartaric acid. It's common applications include: <ul style="list-style-type: none">• acidity regulator• tartrate and bitartrate synthon in reaction chemistries• analytical reagent for testing for ammonium ions (white precipitate formed in the presence of ammonium ions)• nonlinear optical material
