

Quick Start Guide

Software and Support Activation

This document guides you through the registration and activation of your Software and Support contracts

WELCOME

Welcome to our Software Development tools and support activation guide. This document guides you through the registration and activation of your Software and Support contracts.

Section 1: How to register your software product and access your software

Section 2: How to download and license your products

Section 3: Describes the different registration codes and product options

Section 4: How to register your support entitlements

Section 5: Managing Accounts: Shared and personal accounts

NOTE: For additional information on any of the topics in this quick start, refer to the CodeWarrior Suite FAQs at www.nxp.com/CodeWarriorSuitesFAQ.

STEP-BY-STEP ACTIVATION INSTRUCTIONS

1 Register your Software

You may have acquired your software through our web site or an authorized distributor. As a result, you have received the registration code labeled on your physical product delivery, or through your order confirmation email.

This registration code is needed to register your software or support contract.

Figure 1: SW case

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Below is an example of the digital download confirmation email:

Figure 2: Order received email.

If you received this email, click on “Register Now.”

NOTE: If you receive a confirmation email without a registration code, your order may still be in process, please wait until we complete your purchase. Once your purchase is fulfilled you will receive your Registration Number.

You can also get to the software registration code by logging into **www.nxp.com**, and navigating to “View My Orders” from your homepage.

Figure 3: Buy Confirmation page

Or go to **www.nxp.com/activation**. Please input your license registration code where prompted.

Figure 4: www.nxp.com/activation

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Next, select an account to host your software:

- ▶ Select Personal Account to register the product to your personal **www.nxp.com** account
- ▶ Add or select an existing shared account to share the product with others.

NOTE: When creating a new shared account, all members you invite will have to be required on **www.nxp.com** prior to receiving access to the product.

Figure 5: Account selection

After selecting the account the confirmation page will appear.

Figure 6: Registration Confirmation Screen

By clicking on "View Products", the product information page will be displayed, from this page you are able to view and access the list of products available to be licensed and or downloaded.

Figure 7: Product Information with a single product

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

2 How to Download and License Your Products

You can access your Software products by logging in to **www.nxp.com** > Software Licensing and Support. You can also get to the products from “View My Orders” from your homepage.

All activated products will be available in the product list.

Figure 8: Product information with more than one SW.

To activate one of your software products: Click the title of the product that you wish to access, the product details show a list of products you are entitled to license.

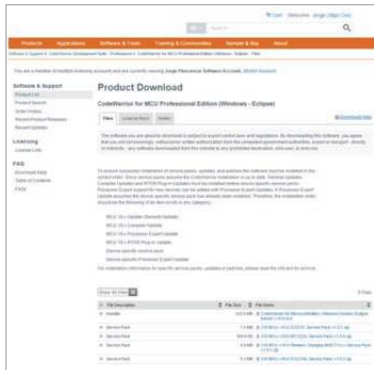

Figure 9: Product Download

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

On the product download site, you will have access to files, licenses, and also any notes for this product that you may need to add.

Files tab: you will have access to all files related to this product (Installers, Service Packs, Updates and Patches)

Generation of a license file:

1. To generate the license that will activate your product, please click on the License Keys tab located below the product title.
2. The License Information page will appear and will display the license file for your product.

Figure 10: License information

3. Click on the Generate button located after the Item Description box.
4. Enter your host ID information.
 - A. If you are using a Node-Lock License you will be required to enter your Disk Serial Number, Ethernet MAC address or Dongle FlexID

You can get your host details from your system running CMD with the commands "vol" for Disk Serial num (8 digits).

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Or “ipconfig /all” for Ethernet MAC.

- B. For floating license enter your server Disk Serial Num or Ethernet address plus the name or IP address.

NOTE: Redundant server configuration is optional. If you need to have triple redundancy, please complete the host information for servers 2 and 3. If you have a single server please discard this option and leave the fields blank.

- Click on Generate.
- Enter your host ID information.

License Applies to Product	Number of Licenses to Generate
SEB - Coordinator for SEB Professional Editor (Ultimate - Editors)	1

Select an existing License Host from the list or enter a new one.
 Existing License Host: Select an existing License Host:

Server Host ID:

Server Name - IP Address:

Port:

Host Description:

For high availability environments, license files can exist in a redundant 3 - server server cluster. If you want to use this option, enter both redundant server names as well as the primary server above, including port numbers. Redundant server entries are not required. (Optional)

Host: Server Host ID:

Server Name - IP Address:

Port:

Host Description:

Host: Server Host ID:

Server Name - IP Address:

Port:

Host Description:

Click on Save All to save the license files into the appropriate location within your specific software installation. Download the file and locate this license.dat file per the following examples:

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Classic-CodeWarrior (versions 9.x and lower):

Path = by default is = Program Files\
NXP\ CodeWarrior for [Platform]
[Version]

Example

C:\Program Files\NXP\CodeWarrior for
ColdFire v7.2

Eclipse-based CodeWarrior (versions 10.0 and higher):

Drive\NXP\ CW [Platform][Version]
[Platform]

Example

C:\Program Files\NXP\CW MCU
v10.0\MCU

3 Entitlements and products options

There are different products you may register on your Software and Support portal.

You can register softwares, Support contracts, Standalone Processor Expert products, Automotive software, enablement and evaluation Softwares.

Here are some examples of these entitlements:

CodeWarrior Software—CodeWarrior Software contains several CodeWarrior products unique to our proprietary architectures. For more information, please select the link below:

www.nxp.com/webapp/sps/site/overview.jsp?code=CW_SUITES&tid=CWH

Examples:

DLA-STANDARD-FL_DDAXXX4548
CWA-PRO-NL_DDAWCZXXXX

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Node-Locked vs. Floating Licenses

CodeWarrior Development Suites can be purchased with either a node-locked or floating license model. If you chose the node-locked option, you can either lock your suite to a single computer or to a USB dongle. If you chose the floating license option, you will lock your suite to a license server.

NOTE: You will find more details about these license options at www.nxp.com/licensingFAQ.

All CodeWarrior Development Suites come with one year of technical support and maintenance, the year of technical support begins on registration date of the suite.

For the CodeWarrior Perpetual Suite, the first year of support and maintenance is included in the price of your initial purchase and must be renewed yearly to continue to receive all the benefits listed below.

For the CodeWarrior Annual Subscription Suite, support and maintenance is always bundled with the purchase of the CodeWarrior Development Suite, and the subscription itself must be renewed annually.

With a current Technical Support Contract you receive:

- ▶ Access to Technical Support via email, web and phone
- ▶ Ability to query outstanding service requests submitted by the customer
- ▶ Online support
- ▶ Free product version upgrades within the development suite as they become available
- ▶ Access to all CodeWarrior products within the development suite
- ▶ Service Packs in support of new silicon releases
- ▶ Software patches and updates

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Support Contracts are offered for our proprietary **MQX™ RTOS** support, **QorIQ Linux®** software development kit (SDK), **Layerscape Application Solutions Kit (ASK)** and **Reference Design System Support**. These prioritized support options will streamline your development efforts, whether you are just getting started or getting deep into your development cycle. Check more information on Section 4.

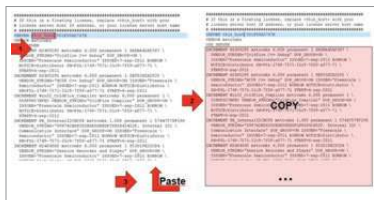

Examples:

DL-MQXLVL2-P_KBPIEYXXXX
SDK-SUPPORT_OUGQWXXXX

Standalone Products

Processor Expert Software and components is a development system to create, configure, optimize, migrate, and deliver software components that generate source code for our silicon. These are available as licensable add-ons, as well as integrated within our proprietary software products such as CodeWarrior.

For the Processor Expert Component add-ons, you can activate these through a license key. Combine the features of your Processor Expert with your CodeWarrior license by copying and pasting the license increments to the CodeWarrior license file.

Example

DLP-MCF-TERM-CX_TQFASFXXX

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

4 Register your Support Contract

Accelerate your design success with prioritized support contracts. You can register these contracts just as you do with Software products.

1. Go to www.nxp.com/activation to start the registration process.
2. Enter valid support contract registration code.

3. Select an account to assign the Software Support contract.

4. Complete the online form to submit your project details to the support team for final set up.

NOTE: In order to complete the form, you are required to accept the Agreements Terms. If you do not agree, stop and contact your representative.

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

The screenshot shows a registration form titled "MQX Support Form". It contains several input fields for company and project information, a checkbox for "I Accept Agreement terms", and two contact sections. The "Contact 1" section is pre-filled with the name "Tomas Isaac Paez Rodriguez", email "t333911@freescale.com", and phone number "+5233332832100". A "Submit" button is highlighted in orange at the bottom right.

Figure 13: Support Project details Form

- This completes the registration process, a confirmation screen will be displayed.

The screenshot shows a confirmation screen titled "Registration Confirmation". It displays registration details for the MQX Commercial Support Package, including a 50-hour support period and a 12-month expiration date. The registered date is 11/18/2014, and the expiration date is 11/18/2015. The quantity is 1, and the support hours are 0. The registration code is DL-LVL2MQX-050_VUTMIO5081, and the license is SWLIC_DEFAULT_INS. The team name is Abstract (WIP), and there are default instructions.

Figure 14: Confirmation Screen

5 Shared and personal accounts

You are now able to manage your software accounts and share your products.

You will be able to create new Shared accounts when registering a product if you are planning to share this software with your development team.

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Creating a shared Software account:

1. To create a new shared account click on "New Shared Account" on the "Add Product To" section.
2. Enter a name for the shared account and add the members that will have access.

NOTE: Members added in this account must have a registered profile in **www.nxp.com** in order to access to the shared account.

A Shared Account Invitation will be sent to the members added.

Moving between Accounts

Product Name	Status	Base	View
CodeWarrior Development Suite - Basic Edition, Annual Subscription, Node locked License	Shared Account	Shared Account	View
CodeWarrior Development Suite - Professional	Shared Account	Shared Account	View
CodeWarrior Development Suite - Standard	Shared Account	Shared Account	View

Figure 15: Account Selection, New shared account

You can move between Accounts to select different groups and projects.

STEP-BY-STEP ACTIVATION INSTRUCTIONS CONTINUED

Adding or removing members

You can add or remove members by entering a Service request.

www.nxp.com/webapp/servicerequest.create_SR.framework and selecting the Category: Software Product Support and the Topic: License Issue.

The screenshot shows a form titled "Required Fields" with two steps. Step 1 is labeled "Category*" and has a dropdown menu with "Software Product Support" selected. Step 2 is labeled "Topic*" and has a dropdown menu with "License Issue" selected. At the bottom of the form are two buttons: "Cancel" and "Next".

SUPPORT

Visit www.nxp.com/support for a list of phone numbers within your region.

WARRANTY

Visit www.nxp.com/warranty for complete warranty information.
