Electrical Specifications

Input Voltage:	120VAC	Output Voltage:	9V DC
Input:	1.5VA	Output Current:	14 mA

Additional Specifications

Battery Type:	9V - NiCad (Rechargeable)
Class:	Class 2
Safety Approvals:	UL / cUL

Dimensions

Class 2 Battery Charger
Model No: I-7785
Input: 120V 60Hz 1.5VA
Output: 9VDC 14mA

Usage Directions

Fig. 1

1.) Insert the 9v rechargeable battery into charger according to Fig. 1. Battery will snap into

Fig. 2

2.) Plug the charger into any household outlet for **10-12 hours** to fully recharge the 9v battery.

Fig. 3

3.) Remove charger from the outlet and remove the 9v battery using the finger hole.

- Important Safeguards -**
- Do Not disassemble the charger.
 - Do Not solder wires to the battery terminals
 - Do Not short the charger at the battery terminals.
