

INTRODUCING

With the introduction of new building code regulations regarding protection of foam insulation on HVAC line sets, Techflex has developed a new lightweight wrap to assist installers with code compliance. Our new Dura HVAC Wrap is constructed of a tightly woven breathable polyester shell that offers protection from wind, rain, mildew, UV Rays and abrasion. The extra wide hook and loop closure assists in covering multiple diameters quickly and easily for a tight fit.

BUILDING CODE COMPLIANT
C 403.2.10.1 & R 403.4.1

- **WATER REPELLENT**
- **SLIGHT ABRASION RESISTANCE**
- **ULTRA VIOLET RESISTANT**
- **MILDEW RESISTANT**
- **600 DENIER POLYESTER
WITH URETHANE COATING**

With the introduction of new building code regulations regarding protection of foam insulation on HVAC line sets, Techflex has a solution. Flexo F6 is a unique split braided tube ideal for protecting HVAC line set. F6's semi-rigid configuration simply closes around the entire installation without the need for any additional fasteners, the 25% edge overlap prevents any area from becoming exposed. F6 will bend to a tight radius without distorting or splitting open.

BUILDING CODE COMPLIANT
