JustBoom Smart Remote

SKU: JBM-017

The JustBoom Smart Remote is a powerful, sleek and intelligent smart device that is perfect for controlling your high definition audio setup. It works in conjunction with our JustBoom audio products as well as other compatible devices.

- Six-axis gyroscope & accelerometer
- Superior accuracy and control
- USB plug-and-play receiver
- Advanced power management
- Compatible with LibreElec out of the box

Description

Do you need to control your JustBoom audio system from across the room? Well now you can with the JustBoom Smart Remote. We have designed the remote to be light, compact, and visually appealing whilst boasting an operating range of up to 10 metres. Advanced power management integration means that you rarely have to change the batteries. Plug the USB receiver into your JustBoom device and start using right away! The black finish pairs well with your JustBoom DAC HAT, DAC, Amp, Amp HAT or Digi HAT when enclosed within one of our official cases.

The majority of people don't need loads of buttons to control their device. That's why we've only included the essential buttons you need to maximise the efficiency of your audio visual setup.

- Six-axis gyroscope & accelerometer
- Superior accuracy and control
- USB plug-and-play receiver
- Advanced power management
- Powered by 2 x AAA batteries
- Operating range up to 10 meters
- Multi-OS support: Windows, Mac OS, Android and Linux
- Compatible with LibreElec out of the box
