For Pi 4B

Raspberry Pi 9 Layers Acrylic Case with Fan (Support Pi 4)
SKU 110991324

This is an acrylic material shell specially designed for the Raspberry Pi 4B.
It is a layered stacking design.
The black and white acrylic sheets are stacked to form a perfect shell.
The shell kit also has 4 aluminum heat sinks and a cover.
The ultra-quiet fan helps dissipate heat and has a beautiful appearance, and feels the interesting aspects of the cascading design during the assembly process.
Make your Raspberry Pi shell unique.
