

Magnetic Screwdriver Set (20 Piece)

TOL-15003 ROHS

Let's face it, everyone will need a screwdriver at some point so it is best to be as prepared as possible by having plenty of different driver bits available to you. This is a 20 piece screwdriver set that magnetically keeps each of the unused bits secured inside of a thin case that easily fits in your pocket. On top of all the bits and handle, this screwdriver set also comes with a pair of tweezers as well (these can really help getting the pieces out of the case).

The Magnetic Screwdriver Set bits are made from S2 steel material with a hardness rating of 60HRC while the handle is completely made from an anti-rust aluminum allow making this entire set incredibly resistant to time and the elements!

INCLUDES
