

# 2-Port HDMI over Cat6 Splitter/Extender Kit, Transmitter/Dual Receivers, 4K 60 Hz, PoC, HDR, 125 ft., TAA

MODEL NUMBER: B127-002-2H2

Transmitter/receiver kit extends a 4K HDMI audio/video signal via Cat6 cable to 2 projectors, monitors or HDTVs up to 125 ft. away.

#### **Features**

Splitter Kit Ideal for Digital Signage or Displaying Video in Schools or Trade Show BoothsThe two-port transmitter/splitter and dual receivers are recommended for video presentations in conference rooms, schools, trade shows, meeting facilities, houses of worship, retail settings and other digital signage applications where the source and display are farther apart than conventional A/V cables allow. The B127-002-2H2 extends 4K video and stereo audio signals from an HDMI source device to two HDMI displays up to 125 feet (38 meters) away via user-supplied Cat6 cabling.

Transmits Crystal-Clear 4K HDMI Video with Multi-Channel Audio and 4:4:4 Color The B127-002-2H2 supports Ultra HD video resolutions up to 4K x 2K (3840 x 2160) at 60 Hz, as specified in HDMI 2.0, with full, rich uncompressed DTS-HD, Dolby TrueHD and 7.1-channel digital audio. Built-in equalization automatically fine-tunes the image quality at the remote displays with no time-consuming manual fiddling needed. High Dynamic Range (HDR) provides a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks that pop on your 4K display. This unit also supports 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor. The transmitter and receivers are backward compatible with non-4K equipment, so you can use this kit with legacy source and display devices.

**Built-In PoC Technology Provides Receiver Power to Avoid Bulky External Power Bricks**Built-in Power over Cable (PoC) technology powers the low-profile receivers over Cat6 cable. Green and orange LEDs on the transmitter and receivers light up to indicate the system is receiving power and a signal is being transmitted. PoC lets you avoid the hassle of bulky power bricks and gives you the freedom to place the receivers away from AC outlets.

**Plug-and-Play Operation for Quick Setup and Immediate Use**The included transmitter/splitter and receiver units work right out of the box with no software required. Mounting hardware is included for installing the units on walls, poles or 19-inch racks. Connect the transmitter to the source and the receivers to the displays with user-supplied HDMI cables (such as Tripp Lite's P568- or P569-Series). Then, connect the transmitter to the receivers using Cat6 patch cable (such as Tripp Lite N202-Series cable).

**TAA-Compliant for GSA Schedule Purchases**The B127-002-2H2 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and

## **Highlights**

- Supports UHD resolutions up to 4K @ 60 Hz (4:4:4) for crystalclear video
- Power over Cable (PoC) technology provides power to the receivers via Cat6 cable
- Transmits full, rich uncompressed DTS-HD, Dolby TrueHD and 7.1-channel digital audio
- Carries High Dynamic Range (HDR) signals for rich contrast and expanded color accuracy
- Plug-and-play operation with no software required for easy, immediate installation

#### **Applications**

- Connect a media server, Blu-ray player, cable/satellite box, Roku, gaming system or other home theater component to two largescreen 4K televisions or projectors
- Upgrade the video quality of your trade show presentation or digital signage installation in a commercial or educational setting to 4K x 2K

#### **System Requirements**

- Source device with HDMI output (Blu-ray player, cable box, laptop)
- Display devices with HDMI input (HDTV, projector, monitor)

## **Package Includes**

- Transmitter unit
- (2) Receiver units
- External power supply (Input: 100–240V)
- (4) International plug adapters (North America, Europe, U.K. and Australia)
- Mounting hardware
- Owner's manual

other federal procurement contracts.
