

## Hex Key Set, Metric, 9-Piece, Color Coded

Ball end hex key set with 9 color coded wrenches from 1.5-10mm.

### Description

Allen wrenches are required to tighten or loosen the fastening hardware supplied with Ruland shaft collars and couplings. They have a ball-end that makes it easier to slide the wrench into the screw. Each key size is color-coded for easy identification and sets come in a plastic carrying case with large labels for organization and quick selection.

### Features & Benefits

- 9-piece metric hex key set - 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 8mm, 10mm.
- Plastic carrying case with labels keeps wrenches organized for quick selection.
- High torque protanium steel is up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.
- Chamfered tips with no burrs or imperfections allow the tool to fit properly and seat fully within the screw head.
- Tools insert quickly and easily into screw head and fit snug to generate greater torque and minimize slippage and stripping.
- Custom heat-treating produces tools that are highly resistant to breakage and shattering.
- Sizes are stamped on the tool.
- Ball End inserts into a screw at a 25° angle, allowing natural hand and wrist movement.

### Product Specifications

<b>Tool Type</b>	Hex Key	<b>Manufacturer</b>	Bondhus
