- Built-in cable harness reduces clutter
- USB cable included

Package Includes

- E2MT EnviroSense2
 Environmental Sensor Module
- USB cable (A to Micro-B), 3 ft.
- · Owner's manual

Monitors ambient temperature conditions.

Description

The E2MT E2 Environmental Sensor Module works with LX Platform devices, including WEBCARDLX, WEBCARDLXS, PDU3XE-Series PDUs and PDU3E-Series PDUs. By connecting the included USB cable to an LX Platform device, the E2MT allows you to remotely monitor ambient temperature conditions in network environments.

If temperature values exceed a certain limit, it is recorded in the event log of the LX Platform device's PowerAlert® Device Manager interface. The E2MT mounts magnetically to most racks and cabinets. Up to three E2 modules can be daisy-chained together. A built-in retention harness secures cable connections to reduce clutter.
