

6 Feet Bi-Directional Parallel Printer (IEEE-1284) Cable (DB25M to C36M)

M01-010

Our IEEE-1284 DB25 Male to C36 Male Parallel Printer Cables are commonly used for printers and scanners.

The fully molded connectors with thumbscrews provide you with a quick and easy connection.

These cables are durable enough for use in industrial settings.

Provides increased speed and functionality over standard parallel cabling.

Works with IEEE-1284 compliant inkjet, laser, all-in one printers and scanners and other IEEE-1284 compliant peripherals.

Fully molded connectors.
