

NLS-EM20-85

FEATURES

O UIMG® Technology

Armed with Newland's six-generation of UIMG® technology, the scan engine can swiftly and effortlessly decode even poor quality barcodes.

Snappy On-Screen and Printed Barcode Capture

The NLS-EM20-85 excels at reading on-screen barcodes even when the screen is covered with protective film or set to its lowest brightness level. Besides, it achieves optimal performance in reading commodity barcodes with various materials and printed barcodes.

O Ultra-Compact Size

At least than 2.0cm, the slim footprint makes this scan engine easier to fit into super-thin devices.

O Optional Functions

The NLS-EM20-85 with glass or foam provides the NFC or non-NFC function, which greatly satisfies different demands. It supports access card, user card, membership card, etc.

O Multiple Interfaces

The NLS-EM20-85 supports USB, RS-232 and TTL-232 interfaces to meet diverse customer needs.
