

USB 3.1 Cable A to C - 3 Foot

CAB-14743 ROHS

USB C is fantastic. But until we have converted all our hubs, chargers, and ports over to USB C this is the cable you're going to need. Supporting USB 3.1 speeds, this 1 meter cable is perfect for high data rate transfers and charging via USB 3.0 or above ports with an A type connector. The USB A to C connectors are of top quality and feel great. The 3.3ft length is perfect for laptop use.
